SEC. 410. Prior to October 1, 2008, the Secretary of Agriculture shall not be considered to be in violation of subparagraph 6(f)(5)(A) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604(f)(5)(A)) solely because more than 15 years have passed without revision of the plan for a unit of the National Forest System. Nothing in this section exempts the Secretary from any other requirement of the Forest and Rangeland Renewable Resources Planning Act (16 U.S.C. 1600 et seq.) or any other law: Provided, That if the Secretary is not acting expeditiously and in good faith, within the funding available, to revise a plan for a unit of the National Forest System, this section shall be void with respect to such plan and a court of proper jurisdiction may order completion of the plan on an accelerated basis.

SEC. 411. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar. Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, all of the western redcedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, the volume of western redcedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (1) which is surplus to the needs of domestic processors in Alaska; and (2) is that percent of the surplus western redcedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a "rolling basis" shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed "surplus to the needs of domestic processors in Alaska" when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

SEC. 414. In awarding a Federal contract with funds made available by this Act, notwithstanding Federal Government procurement and contracting laws, the Secretary of Agriculture and the Secretary of the Interior (the "Secretaries") may, in evaluating bids and proposals, give consideration to local contractors who are from, and who provide employment and training for, dislocated and displaced workers in an economically disadvantaged rural community, including those historically timber-dependent areas that have been affected by reduced timber harvesting on Federal lands and other forest-dependent rural communities isolated from significant alternative employment opportunities: Provided, That notwithstanding Federal Government procurement and contracting laws the Secretaries may award contracts, grants or cooperative agreements to local non-profit entities, Youth Conservation Corps or related partnerships with State, local or non-profit youth groups, or small or micro-business or disadvantaged business: Provided further, That the contract, grant, or cooperative agreement is for forest hazardous fuels reduction, watershed or water quality monitoring or restoration, wildlife or fish population monitoring, or habitat restoration or management: Provided further, That the terms "rural community" and "economically disadvantaged" shall have the same meanings as in section 2374 of Public Law 101–624: Provided further, That the Secretaries shall develop guidance to implement this section: Provided further, That nothing in this section shall be construed as relieving the Secretaries of any duty under applicable procurement laws, except as provided in this section.

NEIGHBORHOOD REINVESTMENT CORPORATION

PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION

For payment to the Neighborhood Reinvestment Corporation for use in neighborhood reinvestment activities, as authorized by the Neighborhood Reinvestment Corporation Act (42 U.S.C. 8101–8107), $119,800,000, of which $5,000,000 shall be for a multi-family rental housing program.

For an additional amount, $180,000,000 shall be made available until expended to the Neighborhood Reinvestment Corporation for mortgage foreclosure mitigation activities, under the following terms and conditions:

(1) The Neighborhood Reinvestment Corporation ("NRC"), shall make grants to counseling intermediaries approved by the Department of Housing and Urban Development (HUD) or the NRC (with match to be determined by the NRC based on affordability and the economic conditions of an area; a match also may be waived by the NRC based on the aforementioned conditions) to provide mortgage foreclosure mitigation assistance primarily to states and areas with high rates of defaults and foreclosures primarily in the sub prime housing market to help eliminate the default and foreclosure of mortgages of owner-occupied single-family homes that are at risk of such foreclosure. Other than areas with high rates of defaults and foreclosures, grants may also be provided to approved counseling intermediaries based on a geographic analysis of the Nation by the NRC which determines where there is a prevalence of sub prime mortgages that are risky and likely to fail, including any trends for mortgages that are likely to default and face foreclosure. A State Housing Finance Agency may also be eligible where the State Housing Finance Agency meets all the requirements under this paragraph. A HUD- or NRC-approved counseling intermediary shall meet certain mortgage foreclosure mitigation assistance counseling requirements, as determined by the NRC, and shall be approved by HUD or the NRC as meeting these requirements;

(2) Mortgage foreclosure mitigation assistance shall only be made available to homeowners of owner-occupied homes with mortgages in default or in danger of default. These mortgages shall likely be subject to a foreclosure action and homeowners will be provided such assistance that shall consist of activities that are likely to prevent foreclosures and result in the long-term affordability of the mortgage retained pursuant to such activity or another positive outcome for the homeowner. No funds made available under this paragraph may be provided directly to lenders or homeowners to discharge outstanding mortgage balances or for any other direct debt reduction payments;

(3) The use of Mortgage Foreclosure Mitigation Assistance by approved counseling intermediaries and State Housing Finance Agencies shall involve a reasonable analysis of the borrower's financial situation, an evaluation of the current value of the property that is subject to the mortgage, counseling regarding the assumption of the mortgage by another non-federal party, counseling regarding the possible purchase of the mortgage by a non-federal third party, counseling and advice of all likely restructuring and refinancing strategies or the approval of a work-out strategy by all interested parties;

(4) NRC shall award $50,000,000 in mortgage foreclosure mitigation grants for States and areas with the greatest needs within 60 days of enactment. Additional funds may be awarded once the NRC certifies that HUD- or NRC-approved counseling intermediaries and State Housing Finance Agencies have the need for additional funds in states and areas with high rates of mortgage foreclosures, defaults, or related activities and the expertise to use these funds effectively. The NRC may provide up to fifteen percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a certification by the NRC that the procedures for selection do not consist of any procedures or activities that could be construed as an unacceptable conflict of interest or have the appearance of impropriety;

(5) NRC- or HUD-approved counseling entities and State Housing Finance Agencies receiving funds under this paragraph shall have demonstrated experience in successfully working with financial institutions as well as borrowers facing default, delinquency and foreclosure as well as documented counseling capacity, outreach capacity, past successful performance and positive outcomes with documented counseling plans (including post mortgage foreclosure mitigation counseling), loan workout agreements and loan modification agreements;

(6) Of the total amount made available under this paragraph, up to $5,000,000 may be made available to build the mortgage foreclosure and default mitigation counseling capacity of counseling intermediaries through NRC training courses with HUD- or NRC-approved counseling intermediaries and their partners, except that private financial institutions that participate in NRC training shall pay market rates for such training;

(7) Of the total amount made available under this paragraph, up to 4 percent may be used for associated administrative expenses for the NRC to carry-out activities provided under this section;

(8) Mortgage foreclosure mitigation assistance may include a budget for outreach and advertising, as determined by the NRC; and

(9) The NRC shall report bi-annually to the House and Senate Committees on Appropriations as well as the Senate Banking Committee and House Financial Services Committee on its efforts to mitigate mortgage default. Such reports shall identify successful strategies and methods for preserving homeownership and the long-term affordability of at-risk mortgages and shall include recommended efforts that will or likely can assist in the success of this program as well as an analysis of any policy and procedures that failed to result in successful mortgage foreclosure mitigation. The report shall include an analysis of the details and use of any post mitigation counseling of assisted borrowers designed to ensure the continued long-term affordability of the mortgages which were the subject of the mortgage foreclosure mitigation assistance.

The SPEAKER pro tempore. Pursuant to House Resolution 878, the gentleman from Wisconsin (Mr. OBEY) and the gentleman from California (Mr. LEWIS) each will control 30 minutes.

The Chair recognizes the gentleman from Wisconsin.

GENERAL LEAVE

Mr. OBEY. Mr. Speaker, I ask unanimous consent that Members may have 5 legislative days in which to revise and extend their remarks on the pending legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I think people know what this bill is all about and, at this point, I don't have any intention of talking more about it, unless provoked.

But let me simply take this time to bring to the House's attention the fact that Frank Cushing, who is a 23-year Hill veteran, is leaving the Congress at the end of this term. Frank has served as the staff director for the Republican majority, and now also for the Republican minority. He's also, in the past, served the House as the chief clerk of the VA/HUD Appropriations Subcommittee.

And I know I should not say it in this body, but he also served numerous positions in the Senate, including staff director for both the majority and minority of the Committee on Energy and Natural Resources and clerk of the Interior Appropriations Subcommittee.

I think that the House owes Frank a debt of gratitude for the work that he's done through the years. I think the country owes Frank a debt of gratitude. He's a fine public servant. I hate to see him go, and I'm sure that that sentiment is shared in spades by the gentleman from California and the other side of the aisle. So I want to extend my best wishes to Frank.

Mr. Speaker, I reserve the balance of my time.

Mr. LEWIS of California. Mr. Speaker, let me begin by expressing my appreciation to Mr. OBEY for recognizing the fabulous work of Frank Cushing.

We expect we'll do more of this as we go forward in the several days ahead of us, but in the meantime, his thoughtfulness is very much appreciated by all of us on this side who have worked so closely with Frank on the appropriations process.

It's not my intention to speak extensively on this matter. There are some things that do need to be said. But, nonetheless, all of us know in 7 days it will be Christmas Eve. Tonight I find myself more hopeful than just a few days ago that we will be home, if we choose, by Christmas.

Tonight the House is considering a massive year-end omnibus spending package. I must confess that while I know the broad parameters of what's included in this package, the details are still not widely known. I'm told that it adheres to the President's top line on spending, which is encouraging and, obviously, a step in the right direction.

I am pleased that, though, through the weekend negotiations Chairman OBEY and other leaders have agreed to drop provisions that would have triggered a Presidential veto. Still, I'm troubled by the fact that these two amendments before us fail to provide any funding to our men and women in uniform in Iraq; yet I remain hopeful that this oversight will soon be addressed by the other body.

It's unfortunate that we find ourselves considering an omnibus package at all for it represents to, I think, both the chairman and myself a breakdown of regular order. I do not blame Chairman OBEY for this breakdown.

This year the House passed each of the spending bills in an orderly fashion. And while I believe that these bills spent too much money, the House Appropriations Committee kept its word by completing its work. The breakdown of regular order, particularly in the other body, is largely to blame, once again, on our failure to complete our work on time in the regular order of the year.

Our Congress, our country are best served when we move our individual bills through the legislative process. It is the only way that we can provide adequate oversight, both policy and spending, that is. That challenge was particularly acute this year with a Democratic majority writing and passing spending bills that initially exceeded the President's budget by some $23 billion. The President has been very clear all year long that he would veto any spending bill that exceeded his budget request. All told, the House spending bills, as passed last summer, dramatically exceeded the President's budget request, and yet, for months, the Democratic majority chose to dismiss or ignore the President's clear intent.

We are now 78 days into the new fiscal year, and it appears that after months of work by our exhausted committee staff, we are on the verge of having a spending package the President may be able to sign. I say may be able to sign because this package, lacking adequate funding for our troops, is still incomplete. For this reason, I'm not able to endorse legislation as presently written. I cannot and will not support a spending package that fails to provide for the needs of our troops in harm's way in Iraq and Afghanistan. Where the House has failed to act, I'm hopeful that the Senate will demonstrate its leadership. It is absolutely essential that the Senate support our troops with no strings attached.

Before closing, Mr. Speaker, let me take a moment to express my appreciation to all of our staff. As DAVID has expressed, the fabulous work by Frank Cushing, he's been supported on our side, as DAVID has on his side, by very hardworking, very fine people who have been working day in, day out, night and day over the weekends. They have prepared this legislation as best their side would allow them, and our side as well. Many of our staff have not yet put a Christmas tree up and even begun to prepare for the holidays because of the work of the committee. Let me say to each of you, I thank you, thank you for your fine work. All of our professional staff has worked together as a team on both sides.

Again, I remain hopeful that the Senate will amend this spending package and quickly return it for our consideration. Until then, I must reluctantly urge my colleagues, I'd include in that even committee members on both sides of the aisle, I encourage our colleagues to oppose this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the distinguished majority leader, Mr. HOYER.

Mr. HOYER. Mr. Speaker, this legislation that is before us will fund our government this calendar year. That was not done last year. Would that it had been done sooner. Would that it had addressed the priorities that we believe the American public supported strongly in November of last year. Would that we were investing the appropriate amounts in education, in health care, in the environment and community health centers and NIH basic biomedical research. Would that we funded them at reasonable levels.

The President indicated that he was going to veto, as Mr. LEWIS said, a bill that was not at his figures. I have observed that this President believes that his budget was sent down on tablets, not on paper. I think that's unfortunate.

The Constitution of the United States, of course, gives to the Congress of the United States sole authority to set policies for the United States. In fact, our Founding Fathers never contemplated the budget autonomy that this administration has sought for itself.

However, having said that, as Mr. OBEY, our chairman has said, rightfully, the votes are what they are. The necessity to come to compromise in a democracy is inescapable if, in fact, both sides can create stalemate. In this instance both sides could create stalemate. That is not, however, the objective of our side. We believe that we ought to, and have a responsibility to, fund our government. This bill does that. This bill does that after having passed all 12 of our appropriation bills prior to the August recess. Unfortunately, we find ourselves at this late date, however, not having completed all of our conference reports and having to move forward.

This bill is a relatively long bill, not the longest bill we will have considered in this manner, but a relatively long bill. It looks even longer if you only print on one side of the page to make a more dramatic presentation.

Having said that, this bill incorporates all of the bills that passed this house. This is not as if these are items of first impression. They are bills that we considered in this House and passed with essentially overwhelming bipartisan votes.

I remember when Mr. LEWIS' side was in charge of the House and they got five or six Democrats to vote for it, it was a bipartisan bill. We've averaged 60 votes, if you take out the Legislative bill, on which essentially games were being played, and perhaps the Foreign Ops bill. You have over 60 average votes on the Republican side.

□ 2130

This is bipartisan legislation. Ninety-five percent of the bill that is presented here has been considered before. I want to congratulate Mr. OBEY for the work that he's done. I want to congratulate Mr. LEWIS for the work he's done.

More specifically, I want to thank the staff. The staff rightfully ought to be exhausted. This staff has spent unbelievable amounts of time in putting this bill together.

It is like every bill we pass, not a perfect bill. It is a bill, as Mr. LEWIS said, that the President has indicated that he might possibly sign. That is, after all, the reality in a democratic environment, where you have the people, having selected a Democratic House, and as one of my friends observed the other day, they elected a third in the Senate. Two-thirds of the United States Senate was elected in 2002 and 2004. Only a third of the Senate was elected in this last election. So it may not be as reflective of the will of the American people as this House is.

This House did its business on time. This House passed responsible bills.

Yes, it was $22 billion over. Mr. LEWIS may be surprised to know that from 2002 to 2006 he spent more on discretionary spending. I know you are going to want to hear this figure: You spent a higher percentage of GDP on discretionary spending than these bills do.

We have invested. We believe the investments included in this bill are the minimal that we ought to make, and we're hopeful that Members on both sides of the aisle can vote for this bill in a nonpartisan, bipartisan fashion. There will be some who vote against these bills because essentially they believe we ought not to be investing significant sums in education and in health care and public safety. The President's budget reflected that philosophy. That is not our philosophy. It's not the philosophy, we believe, of the American people.

So, my friends in this House, I would urge as we come to the end of this session that we pass this bill. It is not what each and every one of us wanted in this bill. There's more perhaps in this bill than some want and less than some others want, but it is in the exercise of the democratic process the possible. It funds our government, it moves us forward, and it is worthy of our support.

I thank the chairman; and, yes, I thank the ranking member for their work, and I urge my colleagues to vote "yes" on this omnibus appropriation.

Mr. LEWIS of California. Mr. Speaker, I'm pleased to yield 2 minutes to the ranking member of the Financial Services Subcommittee of Appropriations, Mr. REGULA of Ohio.

Mr. REGULA. Mr. Speaker, I thank the chairman for yielding.

I simply want to compliment Chairman SERRANO in providing great leadership in the financial services area. This is one of the few bills that was substantially under the President's request, and in fact, it's more than $1 billion under the President's request, which was kind of unusual.

But more importantly, I won't begin to get into all the features of the bill, but because of the news in a recent editorial in The Post, we note that Mayor Fenty and Chancellor Ray are trying to improve the school system of the City of Washington. That's a huge challenge; and in this bill, we've tried to give them as much support as possible in their effort to improve the opportunities for the young people in the Washington, DC, community. This city should be a leader in education.

Secondly, and there's language in here and I don't know how many of you noted in The Post a couple of weeks ago a story indicating that DC has the highest HIV/AIDS rate of any major capital in the world. That's shameful and should not be, and we've provided language in this bill to not only provide help to other countries but to provide help to this city to address that problem and a lot of other features which, regarding the interests of time, I won't get into.

As ranking member of the Financial Services and General Government Subcommittee, I would like to thank Chairman SERRANO for creating such a fair and open environment in composing the Financial Services and General Government portion of this bill. Chairman SERRANO has provided great leadership, knowledge, and an inclusive spirit while shepherding this bill through. Additionally, my colleagues on the subcommittee have provided valuable insight to the final product before us today. Lastly, but equally as important, I would like to recognize the hard work, dedication and expertise of the subcommittee staff on both sides of the aisle without which none of this would be possible.

The Financial Services and General Government Appropriations Bill allocates $20.6 billion in discretionary budget authority. By taking into consideration the priorities of the President and the Members of the House and Senate, we have produced a bill that meets the needs of Americans, and the operations of our government while staying $1.1 billion below the President's budget request and approximately $800 million below the House request. I appreciate the efforts of our counterparts in the Senate in helping us put forth this compromise.

Although the subcommittee's allocation is below the President's request, it is still a significant increase from fiscal year 2007 and contains more than adequate funds for the 32 agencies in this bill to fulfill their missions. The bill provides funding for a diverse number of agencies that affect the lives of all Americans. The agencies funded in this bill regulate the financial and telecommunications industries, collect taxes and provide taxpayer assistance, protect consumers from harmful products, lend a helping hand to small businesses and disadvantaged communities by providing them with capital, support the operations of the White House and Federal Judiciary, provide Federal payments to the District of Columbia, operate and maintain Federal buildings, manage our Federal workforce, which is expected to experience tremendous attrition rates over the next 10 years, assists in the administration of Federal elections and protects consumers and investors from fraudulent practices.

At this time I would like to highlight several items of importance to me.

I am particularly pleased at the $97 million for Small Business Development Centers, an increase of nearly $10 million. The Small Business Development Centers account is the Small Business Administration's primary method of providing management assistance to small businesses. In my State of Ohio we have over 889,000 small businesses, and every dollar invested in the OHIO SBDC network leverages at least $2. This program is vital to the life of small business.

I am also encouraged to see $1.1 million for Treasury's Office of Financial Education, an increase of approximately $400,000 over the President's request. The increase is targeted toward improving the National Strategy for Financial Literacy and expanding efforts at financial literacy in elementary schools and high schools. Financial literacy is a very important life skill, and I look forward to working with the chairman to further develop this initiative to ensure maximum programmatic impact.

Additionally, the bill increases essential funding for the Internal Revenue Service to close the nearly $300 billion tax gap. Closing the tax gap is critical as most Americans do not mind paying their fair share of taxes as long as they know others are doing the same. Furthermore, $3.6 billion is set aside for taxpayer support services activities aimed at tax return preparation, the IRS National Taxpayer Advocate and IRS outreach and education efforts to serve taxpayers by helping them understand their tax obligations before they file. These activities have been steadily reduced in recent years and are in need of a boost.

Last, but not least, I am supportive of the funding appropriated in the bill to improve education in the District of Columbia. We are in a unique position to help the new Chancellor and Mayor provide a better future for the children of Washington. The children in Washington, DC, have been at a disadvantage for many years, and I look forward to working with the Mayor to enhance the school system to give the children of DC a chance to succeed.

Also, the bill contains language regarding HIV/AIDS in DC. One in every 20 city residents in Washington, DC, is thought to have HIV, and one in every 50 has AIDS; these rates are higher than those in many poorer countries. I find this astonishing and disheartening. I look forward to working with my colleagues, the Mayor, and the administration to address this serious problem.

Chairman SERRANO has done a fair job in allocating funds to the various agencies within the bill. However, I do have a couple of spending concerns, which I would like to outline.

Primarily, I am concerned about $125 million added to this bill in unrequested funding for election assistance grants. This program has not been authorized to receive funding in 2008, and there still remains a large carryover balance, which leads me to believe this money cannot be used effectively before the 2008 elections.

I am also concerned about the elimination of funding for the Department of Homeland Security to begin planning their new headquarters building. This funding is critical to begin relocating DHS employees who are currently spread out all across Washington, DC, under one roof.

Lastly, I am pleased to note that all of the contentious policy riders have been eliminated from the bill. Therefore, I strongly support the Financial Services and General Government section of this bill.

Mr. OBEY. Mr. Speaker, I have no speakers at this time.

Mr. LEWIS of California. Mr. Speaker, can you tell us how much time there is on each side.

The SPEAKER pro tempore. The gentleman from California has 23 minutes remaining. The gentleman from Wisconsin has 27 minutes remaining.

Mr. LEWIS of California. Mr. Speaker, I'm pleased to yield 2 minutes to my colleague, the gentleman from Wisconsin (Mr. RYAN).

Mr. RYAN of Wisconsin. I thank the gentleman for yielding.

First, I'd like to associate myself with the chairman's comments in recognizing Frank Cushing and his accomplishments and wishing him well in his retirement.

Mr. Speaker, this is a bill that's 3,565 pages. Yes, I'm seeing that it was printed on one side, but this is the bill that was handed to us by the majority staff in the Rules Committee. It's their bill. They printed it for us, 34.4 pounds.

This bill has, we think, 9,200 earmarks in it. We believe hundreds of these earmarks were air-dropped, never seen before in the House, never seen before in the Senate, brand new, just delivered right here on this House floor. We received this bill today. We'll be voting on this bill in about 10 minutes.

This bill takes $10 million from border security to commit $10 million of taxpayer funds to hire defense attorneys for illegal immigrants. We don't know exactly how they do that, but that's in here.

The point is, Mr. Speaker, this is a bad day for this House. This is a bad day for the fiscal policy of this country. We are about to vote on a bill that commits about $515 billion in spending, 3,500 pages long, 9,200 earmarks, many we've never seen before; and we're going to vote on this in about 10 minutes, and we'll have had less than 1-hour debate on the entire measure.

This is no way to run a railroad, Mr. Speaker, and sadly, it has been run like this in the past. The new day we were promised with the new majority, in fact, is not a new day. Unfortunately, it's like days of old.

I'm very pleased that the number did not go up to where the majority wanted it to go, an extra $23 billion, which would have brought another $196 billion of deficit spending into the budget. Thankfully we're at that lower number; but when you look at this process, when you look at what's in this bill, as we are just getting through this bill, this bill should be defeated; and I urge a "no" vote on this legislation.

Mr. OBEY. Mr. Speaker, I yield myself 3 minutes.

The last people I will take any lectures from on earmarking are my colleagues on the other side of the aisle. The last time I chaired the Labor-Health-Education appropriation bill, there were no earmarks. In the last year of the Republican regime, there were over 3,000. Earmarks exploded under their rule.

Two years ago, there were $16 billion in earmarks. The bill that we bring tonight contains a 43 percent reduction in that amount. In July, I offered this House an opportunity to strip all earmarks from the bill. We got exactly one Republican vote out of five in support of that motion. We got 45 Republican votes for that motion, less than 22 percent.

Last week, I suggested again that all earmarks be removed. I was run over by a majority of both caucuses.

Let me also point out that if the gentleman is complaining about so-called air-drops in projects, of course there are projects that were air-dropped. There were two appropriation bills that left the House that had no earmarks because they were the first ones out of the box, and we were trying to stay on schedule. Every Member in the House except the most obtuse knew that those earmarks would have to be added in the Senate, and they were, in the Homeland Security bill and in the Military Construction bill.

As far as the Labor-Health Subcommittee is concerned, the earmarks that were added there are only the earmarks that were added from Members who were not in the House at the time that the House bill passed. Those districts are entitled to representation, too, and those Members are entitled to be treated with consideration, just as every other Member of the House is.

So with all due respect, one last point: the gentleman complains, again, about the fact that we are passing an omnibus appropriation bill containing hundreds of pages and billions of dollars. I will hold that in this hand. I'm holding in my right hand all of the pages from the domestic budget that the Republican Congress passed when they were in power. You know how many pages there were? None, because they never got the job done on a single appropriation bill.

So if I have to choose between getting our work done in an omnibus bill like this or doing nothing and turning your job over to the next Congress, pardon me, it may not be elegant, but I'll take the product that chose the work.

Mr. Speaker, I reserve the balance of my time.

Mr. LEWIS of California. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. HENSARLING).

Mr. HENSARLING. I thank the distinguished ranking member for yielding.

There are so many different reasons, Mr. Speaker, that we should oppose this massive omnibus spending bill, not the least of which is the process. The process can lead to bad results.

When the Speaker, Speaker PELOSI, was the minority leader, she said this was a terrible process. In fact, I quote: "The Republican leadership forced through a so-called 'martial law' rule that required a same-day vote, preventing Members of Congress from having enough time to read legislation that spent hundreds of billions of dollars and was thousands of pages long. This arrogance of power is part of a pattern of abuse."

Now, that's what the Speaker thought when somebody else was in control; but now that her party is in control, I guess it's perfectly appropriate to present a 3,565-page bill on the very same day, of which I'm told 692 pages are devoted to earmarks, and for us to spend approximately 60 minutes debating $515 billion. If I did the back-of-the-envelope math properly, we're debating $9.1 billion of the people's money each minute.

Where's the transparency here, Mr. Speaker? Where's the accountability? And this is a bill that still grows government at twice the rate of inflation. There's not one Member of this body who knows what is in this bill, and I'd include the distinguished chairman of the Appropriations Committee. It defies logic that any one Member of this body knows what's in the bill. It should be rejected on that alone.

But, Mr. Speaker, ultimately this bill puts us on a path to double taxes on the next generation, and don't take my word for it. Listen to the director of the Congressional Budget Office appointed by the Democrat majority. Listen to the Comptroller General. They all say the same thing. Reject this monstrosity.

Mr. OBEY. Mr. Speaker, I yield myself 1 minute.

The gentleman complains that we're spending 60 minutes debating the contents of this bill tonight. Mr. Speaker, do you know how many minutes we spent debating the contents of the domestic appropriation bill conference reports in the last session of Congress when the Republicans controlled? Zero, because they produced zero legislation.

□ 2145

They left their dirty work to us, so we had to do twice the work this year because they didn't do any of it on the domestic side of the ledger last year. So 60 minutes may not be a lot to debate, but it's a whole lot more than zero.

Mr. Speaker, I reserve the balance of my time.

Mr. LEWIS of California. Mr. Speaker, I yield 2 minutes to the gentleman from Connecticut (Mr. SHAYS), the ranking member of the Budget Committee.

Mr. SHAYS. I thank the gentleman for yielding.

Mr. Speaker, 10 bills into one omnibus bill divided into two parts: fund the government, nonmilitary; fund Afghanistan.

What about Iraq?

2007 has been a remarkably positive year for our troops in Iraq, for the Iraqi Government, for the Iraqi people. But too many in this Congress are reluctant to acknowledge the success. The training of Iraqi military, police, border patrol is finally beginning to pay off. The surge is working. The tribal leaders are siding with us, not al Qaeda. So what about Iraq? And what about our troops in Iraq? We can fund our troops in Afghanistan but we can't fund our troops in Iraq?

Our troops in Iraq deserve better. They have overcome one obstacle after another. Unlike last year, we are winning in Iraq. We need to draw down our troops month by month, but our troops in Iraq deserve to be fully funded until then.

I look forward to the Senate's acting more responsibly than this House and giving us a bill that will fund Iraq as well.

Mr. OBEY. Mr. Speaker, I have no further requests for time, and I reserve the balance of my time.

Mr. LEWIS of California. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Speaker, I didn't plan to speak on the bill itself. I already spoke on the rule. But I have been hearing some of the conversation in my office and felt I had to come down.

The honorable majority leader mentioned that there are things in this bill we have seen before. That's not entirely true. There are literally hundreds and hundreds of earmarks that we have not seen before. Now, some of them are part of the bills that passed without earmarks, MilCon or homeland security. But in the case of homeland security, we were told we could do that because that's not a bill that is traditionally earmarked. It hasn't been.

Well, it is now. There are more than 100 earmarks there.

And the gentleman from Wisconsin mentioned that in Labor-HHS, there were only earmarks added for new Members who are coming because they are entitled to representation.

I would suggest that nobody is entitled to get earmarks. You're entitled here, as a Member of Congress, to exercise oversight in how the Federal agencies spend money. It doesn't entitle you to get earmarks.

And, also, on that same point, we have the Energy and Water bill that we did consider, and there were hundreds, if not, I think, close to 1,000 earmarks there. Well, we added 34 more. I will just highlight one of them. There's one for the Northwest Regional Planning Commission manufacturing conversion for energy efficiency, a $5 million earmark.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. FLAKE. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, the Energy and Water Subcommittee didn't add 36 earmarks. It added 38.

Mr. FLAKE. I said 34, but I will take your correction. Thank you.

But, Mr. Speaker, these were earmarks that were added in addition to what was there before. They were airdropped. They are earmarks that we haven't seen before that we do not have an opportunity here to strike or even debate. I mean, there are some of them that are simply for a city. We are told Findlay, Ohio, will get $100,000. For what? Ottawa, Ohio, $100,000. For what? We don't know. The City of Santa Clarita, California, will get $41,000. For what? We have no idea.

We simply don't know what's in this bill. How can we be voting on it?

Mr. LEWIS of California. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OBEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to express my appreciation for the tremendous work done by the entire staff. It's already been mentioned by the gentleman from California. I want to publicly express my gratitude to the entire staff on both sides of the aisle as well as the associate staff and especially Rob Nabors, our staff director on the committee.

I don't think Members sufficiently appreciate how many nights in a row these staff people go without sleep. These people have literally been here virtually around the clock for the last 3 days. It's a miracle that they don't make some major mistakes.

I also want to express our special concern tonight for Dixon Butler, a staffer who has served the committee very well who underwent some very serious surgery yesterday. I think it's safe to say that Members on both sides of the aisle are very concerned about him, and we hope he'll take all the time he needs to get well.

I also want to make a few remarks to put this bill in context, because it is the major domestic achievement of the Congress for this year.

Last year, Mr. Speaker, in November, the public sent two messages. One was that they wanted to end the war in Iraq. The second was that they wanted a change in national priorities. We have struggled mightily to bring about both, and we have failed for two reasons. Number one, because we have not had enough votes in the Senate. The public thinks that my party has control of the United States Senate. Unfortunately, we merely have custody of it. Under their peculiar rules, they require 60 percent of the votes to make a major decision. We only have 51 percent of those votes on our side of the aisle in the Senate.

The second reason that we have failed to accomplish a good many things that we wanted to accomplish is because the President, after the election, essentially told the American people, Forget what message you thought you were sending. I'm the great decider. We're going to continue to do things my way. And that is what he has tried to do.

The result is that we have passed bills to try to change direction in Iraq twice. The President vetoed one of them, and he has blocked action on the other one in the United States Senate. He has insisted that we spend nearly $200 billion more for Iraq, but he said at the same time that we could not afford one-tenth that amount for crucial investments here at home.

We sent appropriation bills containing 70 percent of domestic discretionary spending to the President. On a bipartisan basis we sent those bills down. We averaged almost 60 Republican votes. He chose the veto path instead, and so only the Defense appropriation bill has become law.

He has insisted that he write the top line in the budget. If we did that, we would have cut 800 grants from the National Institutes of Health. We would have cut access to health care by $600 million. We would have cut rural health by 54 percent, vocational education by 50 percent. We would have eliminated every student aid program except Pell Grant and Work-Study. We would have cut the State and local law enforcement grants by $1.2 billion. We would have cut deeply into renewable energy.

We sent to him legislation which had very different priorities. He vetoed it. Next we asked, Why don't we split the difference? Why don't we go halfway to the President and have him come halfway to us? His response was, No way.

So now, as the majority leader has said, we're at the end of the road. This is the last chance to produce a set of domestic priorities that are different from those the President proposes.

In my view, this bill is totally inadequate to meet the long-term investment needs of the country, but it is a whole lot better than would have been the case if we had not waged the fight. Because of that fight, this bill will contain $600 million more than the President wanted for the National Institutes of Health. It will contain $1 billion more than the President wanted for community health centers and other points of health care access. It will contain $150 million more to help rural communities deal with their health problems. It will contain $150 million more for the Social Security Administration to deal with its disability backlogs. It will contain $800 million more in elementary and secondary education than the President wanted. It will provide $575 million above the President for vocational education. It will provide $1.2 billion more in State and local law enforcement assistance than the President wanted. It will provide $1.8 billion more for homeland and border security. And it will provide $500 million more for renewable energy and energy efficiency.

And, most importantly, it will provide $3.7 billion more for veterans' health care. It seems to me if the President can ask us to spend $200 billion more on the war in Iraq, we can spend $3.7 billion more to help those who wage the war at great risk to their own health and their own lives.

This bill also contains $7 billion in emergency funding. Eighty-five percent of that money has been asked for by the administration. It didn't originate here.

All in all, we have been able to move about $21 billion into a better set of priorities than we were presented with when we were presented with the President's budget.

We have heard a lot about all of the shortcomings in process tonight, but let me make clear there is one vital difference between what we are doing this year and what we did a year ago. Last year under a Republican majority, our friends on the other side of the aisle were not able to complete action on a single domestic appropriation bill, so we were left to deal with that when we took control of this institution in January. The difference is that this year we are recognizing that in an adult world, win, lose, or draw, we have an obligation to reach some final decisions. We have an obligation to compromise and move on. And that's what we are trying to do with this legislation. It is a responsible thing to do.

I want to thank every Democrat who supported it. I want to thank every Republican who will support it. And I would hope that this can finally wrap up the session, reflecting somewhat better than the President's budget has what the priority wishes are of the American people. I ask for "aye" votes on the two amendments.

Mr. UDALL of Colorado. Mr. Speaker, I am far from enthusiastic about voting for this bill, but I will do so despite its shortcomings.

Ironically, one of the worst shortcomings is that it is too long. It rolls into one massive measure provisions from no fewer than 11 regular appropriations bills that the House passed earlier this year, creating a "consolidated" omnibus that was not finished until yesterday and that very few if any Members have had a chance to completely review.

I regret that once again the apparent inability of the Senate to pass all but a few appropriations bills has led to this result. This is not the way Congress should do its work. That is why I have joined as a cosponsor of a resolution, H. Res. 283, that would change the House's rules to generally bar consideration of a conference report including accounts within the jurisdiction of more than one appropriations subcommittee—and, while technically the measure before us is not a conference report, I think that it would be better not to proceed in the way we are doing today.

An even greater shortcoming is that this bill fails to provide the level of funding I think is needed for some important purposes. This results directly from President Bush's insistence that he will veto any bill appropriating more money than he has requested for domestic purposes and from the blind loyalty of Republican members of Congress, both here and in the Senate, who have made clear they will support any such veto.

But, despite these shortcomings, I will vote for the bill because it still is better than would have resulted if we had simply rubber-stamped the President's budget requests and because it includes provisions that will directly benefit Colorado and the Nation.

On a matter of great importance for all Coloradans, and especially residents of our Western Slope, the bill retains my amendment barring BLM from proceeding with final regulations for a commercial oil shale leasing program during fiscal year 2008, plus additional language in the explanatory statement that makes clear that the Interior Department must provide adequate time for the Governor and the public to provide input before any such final regulations are adopted.

This demonstrates that Congress has listened and will insist that the administration move carefully with regard to commercial-scale development of oil shale, even though the revisions of the oil shale provisions of the 2005 energy policy act approved by the House earlier this year are not included in the Senate version of the energy legislation that the House will consider later this week. Those revisions would have required that BLM issue proposed regulations and allow ample time for public comments on them. The language in this appropriations measure, which affects only final regulations, is consistent with that approach.

And the bill also provides funding for many things of direct immediate benefit to Colorado, including much-needed improvements to our transportation infrastructure, the continued acquisition of lands in the Beaver Brook watershed for inclusion in the Arapaho-Roosevelt National Forest, and work by the Corps of Engineers and the Bureau of Reclamation with respect to our vital water supplies.

Other examples of specific items for use in Colorado include funds for child abuse prevention and treatment programs in Golden, for career training in the health professions at Aims Community College in Greeley, for health information systems at the Avista Adventist Hospital in Louisville, for facilities and equipment to be used by Children's Hospital in Denver.

The bill's provisions for the National Park System include funds for several Colorado units, including land acquisition at Mesa Verde and for construction work at Rocky Mountain National Park. It also makes a start toward the Centennial Challenge initiative which has such promise for parks in our State and nationally.

And Colorado and the entire country will benefit because the measure includes funds for the vital work of the National Renewable Energy Laboratory, NREL, including critical funding for the Energy Systems Integration Facility, ESIF.

ESIF will be a state-of-the-art facility to accelerate research into energy systems integration and the key issues of interconnectivity and control of resources. The $55 million included in the bill for ESIF will enable NREL to begin construction on this needed facility in fiscal year 2008, and the $7 million for South-Table Mountain, STM, Infrastructure will help with initial construction on this site while the $8 million for solar equipment will allow NREL to purchase state-of-the-art solar equipment for the Solar Energy Research Facility.

There is also funding for energy-related work at the Colorado School of Mines as well as for use in connection with a biodiesel project in Costilla County and the sustainable biofuels development center.

In fact, the bill provides a full $486 million more than President Bush requested for investments in solar energy, wind energy, biofuels, and energy efficiency—something that I am very glad to support.

In addition, I am glad that there is funding within NASA's earth science account to initiate important climate research missions as well as well as an endorsement of language in the House-passed Commerce, Justice, Science appropriations report that called for continued support for climate sensors already in development. This includes the Total Solar Irradiance Sensor, TSIS, which is being built by the University of Colorado's Laboratory for Atmospheric and Space Physics.

However, as chairman of the House Space and Aeronautics Subcommittee, I am disappointed that to construct a bill the President would sign, the higher funding levels for the National Aeronautics and Space Administration, NASA, provided in both the House and Senate bills had to be sacrificed. It is clear that Congress recognizes the value of NASA's activities in science, aeronautics, and exploration, and I hope the President will send Congress a budget request next February that would give NASA the resources it needs to carry out its important missions.

As a member of the Armed Services Committee, I want to highlight some of the items in the measure that are particularly important for Colorado's servicemembers and veterans.

These include $61.3 million for the parking structure and energy plant at Fitzsimmons Veterans Hospital and $7.3 million for a new F–16 facility at Buckley Air Force Base.

In addition, the bill will provide $35.1 million for the Pueblo Chemical Depot, to be used for construction of on-site chemical destruction facilities, with the goal of completing clean-up at the facility by 2012.

And it includes nearly $170 million to support Fort Carson in the context of the stationing of two new brigades and the new headquarters of the Fourth Infantry Division. This includes $53 million for new barracks; $18 million for an addition to Evans Army Hospital and a dental clinic; $8.3 million for a Defense Access Road to allow personnel and equipment to deploy easily from Peterson Air Force Base; $4.9 million for a new indoor range; $72 million for new unit operation facilities; and $13.5 million for construction of new facility support operations for the 13th Air Support Operations Squadron.

There is also $24.5 million for an Air and Space Integration Facility at Schriever Air Force Base and $15 million to upgrade academic facilities at the Air Force Academy.

Mr. Speaker, I could continue at length but will conclude by simply noting that the bill provides much-needed funding to study diseases like Alzheimer's, cancer, Parkinson's, and diabetes; to help small rural hospitals; and to provide 280,000 more underinsured Americans with access to health care. It includes more adequate funding that the president requested for education—including special education, after-school programs and Head Start, Pell grants and other student assistance—as well as for assistance to state and local law enforcement and homeland security.

So, while as I said the bill has serious shortcomings and while I would change many parts of it if I alone were "the decider" about the matter, I think it deserves approval tonight and I will vote for it.

Mr. SERRANO. Mr. Speaker, I rise tonight to take a moment to highlight some of the provisions that were included in the Financial Services and General Government section of the omnibus appropriations legislation that we are considering this evening.

Despite a limited allocation, and multiple cuts subsequent to the House passed bill, the Financial Services and General Government portion reflects the commitment that I made when I became chairman to work on behalf of our consumers and to bring the priorities of the agencies that this bill funds closer to the needs of our citizens, especially the most disadvantaged.

The Consumer Product Safety Commission will receive a more than 27 percent increase over 2007 to help keep dangerous products out of the hands of our children. This is especially poignant this holiday season as we shop for safe gifts for our children. Funding for the Federal Trade Commission is increased by 15 percent over 2007 so that we can better address the problems of identity theft and deceptive lending practices, which impact more and more consumers.

We have an obligation to assist our States as they struggle to make sure that our 2008 elections are accurate and reliable. There was included $125 million for grants to help States comply with the Help America Vote Act, including upgrading voting machines and voter registration databases. All citizens want to be sure that their vote will count. This important funding moves us closer to that goal.

I am especially proud that we were able to fund the Community Development Financial Institutions Fund at $94 million, a 72-percent increase over 2007. This fund expands economic development and affordable financial services for underserved communities through housing loans, micro-business loans, and community development banks and credit unions.

It is my firm belief that the Federal Government should not dictate to the District of Columbia how it should manage its own affairs or spend its own money. In this section we took some important steps in this direction by allowing the District of Columbia to use its own local funds for needle exchange programs to help fight the spread of HIV/AIDS. This also removes longstanding restrictions on the use of local funds by District leaders in support of voting representation in the United States Congress. In addition, the District of Columbia, Puerto Rico, and the territories will, with the passage of this omnibus, have quarters with designs they help select issued in 2009 to honor them and raise awareness of the diverse places that fly the American flag.

The consumers of today and tomorrow must have financial education programs that help them to better understand the complicated financial world in which we operate. The current subprime lending crisis is just one example of how important this funding is in our society today. The Office of Financial Education at the Department of the Treasury will receive $1.1 million, with $200,000 targeted at our future consumers currently in our elementary and high schools, and $200,000 aimed at efforts to protect all consumers against predatory lending. There is also an increase in the Securities and Exchange Commission's budget specifically for investor education and protection.

As our tax forms and obligations become more complicated, we as a government should provide additional taxpayer assistance. In order to address this need, $31.2 million is included above the President's request to increase IRS outreach and education services for taxpayers and small businesses, and tax return preparation services at Taxpayer Assistance Centers. There is an additional $6.7 million above the President's request to improve the services of the Taxpayer Advocate Service and its oversight of the IRS. Eight million is included for a new pilot grant program for Community Volunteer Income Assistance sites and $1 million over the President's request for Low-Income Taxpayer Clinics.

Recognizing the importance of our small businesses, there is an 11 percent increase over 2007 for Small Business Development Centers. The Microloan program is funded at $17 million, which includes the $15 million for technical assistance that had been eliminated in the President's request.

Our Federal workforce will be receiving a 3.5 percent cost-of-living adjustment. In addition, there are provisions to make sure that Federal workers whose jobs are threatened by privatization will have protections to ensure that the competitions against contractors are fair and unbiased. This bill also includes an important provision to improve congressional oversight of the practice of service contracting in Federal agencies. With contracting government-wide having grown to over $400 billion, Congress needs to ensure that it has necessary information on the size and scope of contracting in each agency. The bill will establish a pilot program that will require the Office of Management and Budget, OMB to track the cost and size of service contracts in three Cabinet-level departments. The program will give particular attention to contracts that have been performed poorly by a contractor because of excessive costs or inferior quality. It is also our intent that agencies other than the Department of Defense participate in this program, since the Department of Defense will already be subject to contract inventory requirements included in section 807 of the National Defense Authorization Act, NDAA, for fiscal year 2008.

I also want to clarify our intent with respect to section 739(b) of the Financial Services bill, regarding the use of public-private competition to evaluate the benefits of converting work from contract performance to performance by Federal employees. The NDAA includes section 324 relating to insourcing new and contracted out functions, and the Department of Defense should follow the provisions included in section 324 of its authorization.

There are also important provisions to address real national security needs. Treasury's Office of Terrorism and Financial Intelligence receives $56.8 million to help coordinate with the rest of the U.S. intelligence community and with other countries to combat terrorist financing. The Financial Crimes Enforcement Network receives $85.8 million to increase the number of financial transaction analysts coordinating with intelligence agencies and law enforcement, and the number of staff working to ensure Bank Secrecy Act compliance by financial institutions. Funding is included for additional Treasury staff to improve the review process of the Committee on Foreign Investment in the United States.

I am also proud that this section of the bill recognizes, through real dollars, how we value and want to protect our national heritage. Operating expenses for the National Archives are funded at $315 million in order to restore the research hours that had been reduced and to expand the workforce of professional archivists. The Archives' grant program will receive $9.5 million to assist in the preservation of the historic documents of States, local governments, universities, local historical societies, and others.

Our Financial Services portion will benefit Americans by bringing Government in the agencies funded in this section closer to the people and make it better able to fit its services to their needs. The American people expect and deserve the best services their Government can offer and this is reflected in this pro-consumer section.

Let me conclude by thanking my friend, ranking member, and partner, Congressman REGULA, for his hard work and collaboration throughout this process. We might not agree on everything, but we worked together to try and fashion the best possible financial services section. I also want to express my appreciation and thanks for the hard work of our staff, both the majority and the minority. They are dedicated and devoted countless hours to the final product that we are considering today.

I will vote in favor of this omnibus legislation tonight as we move this process forward.

Mr. HALL of New York. Mr. Speaker, tonight this body did something that it failed to do last year under the previous majority by passing legislation to direct the spending of our Federal Government.

I am disappointed that the choice of the President and the minority to engage in confrontation and obstruction instead of cooperation and progress prevented us from more fully meeting America's needs in this bill. Despite their intransigence, we were able to pass a bill that began to reinvest in critical national priorities that had been neglected for too long. Priorities like life saving medical research, law enforcement, border and homeland security, K–12 education, college aid, needed infrastructure improvements, renewable energy, and energy efficiency. In addition to those steps, this bill lived up to the commitment of this Congress to keep our promises to America's veterans by providing $3.7 billion over the President's request for veterans' medical care, claims processing, and facility improvements.

As I indicated this is not a perfect bill. I am deeply troubled by the decision to include language that provides authority for the Department of Energy to issue over $8 billion in loan guarantees to coal-based energy projects, and over $20 billion for nuclear energy projects, while authorizing only $10 billion for renewables and energy efficiency. Nuclear power has shown itself to be an environmentally and economically unsustainable form of energy, and has repeatedly failed the test of whether it can survive without taxpayer support. Given the nuclear industry's record of risk and nonperformance, expanding taxpayer support for nuclear power would be throwing good money after bad. In order to truly make the most progress possible toward a clean, profitable, independent energy future for our Nation, it will be more effective to devote maximum federal support to renewable energy technologies like wind, solar, geothermal as well as new technologies and improvements in efficiency.

While I remain concerned about the loan guarantee language, I believe that in its totality the spending bill we approved tonight does a tremendous amount of good by funding key programs that will make America more secure and more prosperous. It makes necessary investments in America's future, and that is why I voted for it.

Mr. McNERNEY. Mr. Speaker, in the next few days the House and Senate are expected to pass H.R. 6, a comprehensive energy bill to chart a new course for our Nation's energy policy. This legislation is a major step towards a sustainable energy future, and I am proud that language was included in the bill to advance geothermal research. Specifically, a subtitle of H.R. 6 authorizes investments in new methods of extracting geothermal energy from the earth. These technologies have the potential to generate tremendous amounts of environmentally friendly, domestically produced electricity.

Today we are considering the Fiscal Year 2008 omnibus appropriations bill to fund most of our Federal Government for the coming year. It is my hope that to the extent that funds are available beyond purposes specifically directed by this appropriations measure, the appropriation for the Department of Energy's geothermal research program should be used to begin implementation of provisions in Subtitle B of Section VI of HR 6, also known as the Advanced Geothermal Energy Research and Development Act of 2007. Geothermal energy has the potential to contribute significantly towards energy independence and efforts to address climate change, and we should pursue this research without delay.

Mr. OBERSTAR. Mr. Speaker, I am very concerned about the myriad legislative provisions in this bill that modify projects and studies of the U.S. Army Corps of Engineers, "Corps". These provisions, contained in the Energy and Water Development and Related Agencies Appropriations Act, 2008 division of H.R. 2764, affect authorizations and policy issues that are solely within the jurisdiction of the Committee on Transportation and Infrastructure.

Mr. Speaker, after 7 long years, the Committee on Transportation and Infrastructure successfully enacted P.L. 110–114, the "Water Resources Development Act of 2007," "WRDA 2007", last month. This landmark legislation authorizes roughly $23 billion in project studies, authorizations, and modifications across the spectrum of Corps missions.

Unfortunately, however, several of the provisions contained in the Energy and Water Development Appropriations Act undermine agreements reached in the House and Senate conference negotiations on the water resources act. In addition, these provisions undermine existing statutory obligations and Committee on Transportation and Infrastructure policy with respect to Corps project authorizations.

Mr. Speaker, one of the most egregious examples of legislative language contained in this bill is section 117, related to the project at Johnson Creek, Arlington, TX. This provision expands the flood damage reduction measures currently underway in Arlington, TX, to provide additional flood protection to new developments currently being constructed along Johnson Creek, including a major league baseball stadium, a new national football league stadium, and a 5-million-square-foot development plan for Glorypark that will be comprised of multiple hotels, residential units, and commercial space nestled between the creek and the two stadiums.

The original plan for Johnson Creek, authorized in the Water Resources Development Act of 1999, called for the restoration of approximately 155 acres of bottomland hardwoods, and recreation features, e.g., walking trails, along Johnson Creek, at an estimated total cost of $30,000,000. Construction on the authorized project is approximately 50 percent complete.

During consideration of WRDA 2007, the Committee received a request to modify the ongoing project for Johnson Creek—the very same provision that is contained in section 117 of the Energy and Water appropriations bill. Section 117 modifies the existing project to convert approximately 90 acres of the 155 acres designated as mitigation lands—and proposed for restoration in the original plan—into a parking lot and other improvements related to the proposed stadium construction. Section 117 provides for the construction of additional flood control structures and the acquisition of an additional 90 acres of new environmental restoration/preservation lands to offset those lands constructed under the original authorization. The estimated cost of the revised proposal is $80,000,000.

I opposed the proposed modification for Johnson Creek when it was offered before the House Committee on Transportation and Infrastructure, and continue to oppose the very same language that now appears in section 117 of the Energy and Water Appropriations bill.

First, section 117 authorizes the Johnson Creek project without requiring that the project meet a traditional cost-benefit test.

Section 1 of the Flood Control Act of 1936 requires that, for flood control projects, the benefits of the project are in excess of the costs. Over many decades, this statutory requirement has been carried out through the calculation of a cost-benefit test for Corps projects. Typically, when Congress authorizes a project, it must be "feasible"—meaning that the Corps determines that the project is technically sound, environmentally acceptable, and economically justified.

Section 117 waives the traditional cost-benefit test, and only requires that the project be technically sound and environmentally acceptable.

During the formulation of the Water Resources Development Act in the House, the Corps provided the Committee on Transportation and Infrastructure with information on the estimated cost-benefit ratio for the Johnson Creek plan, "A Vision of Conservation," dated March 2006. According to the Corps, the total anticipated cost for the flood damage reduction element of the project is $27.9 million. The average annual costs are estimated to be $2.84 million. The total potential average annual benefits are $1.28 million. The estimated benefit to cost ratio is 0.45 to 1. In essence, the reason that the benefits for this project are very low is because the project does not protect traditional structures, e.g., housing, commercial properties, but mainly serves to minimize potential flooding of the parking lot for the sports stadium complex, built on the former ecosystem restoration lands of the prior project, and protect an amusement park further downstream.

The Corps estimated that the total anticipated costs for the recreation component of the plan are $10.6 million, estimated to be $1.14 million annually, and include the construction of trails and associated facilities within the project area. The total potential average annual benefits from the recreational element were estimated to be $1.6 million. The estimated benefit-to-cost ratio for the recreational element is estimated to be 1.44 to 1. The Corps also estimated that the "Vision of Conservation" plan would include an additional $21.5 million for bank stabilization, sedimentation basins, and the planting of trees, shrubs, and grasses. The Corps did not provide a detailed assessment of the benefits of these additional elements.

As Chairman of the Committee on Transportation and Infrastructure, I opposed the proposal to waive existing statutory and policy requirements that the project undergo a proper cost-benefit test. In a carefully and extensively negotiated bipartisan agreement, the Committee modified the project to allow the "Vision of Conservation" to proceed, but to retain the traditional benefit-cost analysis for the project. In addition, the Committee included statutory language to allow the non-Federal sponsor to contribute additional local funds to ensure that the Federal and non-Federal shares of the cost of the project would reflect the estimated cost-benefit ratio. The Committee believed that this was a fair way to allow non-Federal sponsors, such as the City of Arlington, TX, to contribute more funding toward desired Corps projects, but not violate the requirement that the costs of a project at least equal the benefits.

This bipartisan agreement was included as section 5123 of the House-passed Water Resources Development Act of 2007:

"SEC. 5123. JOHNSON CREEK, ARLINGTON, TEXAS.

"(a) IN GENERAL.—The project for flood damage reduction, environmental restoration, and recreation, Johnson Creek, Arlington, Texas, authorized by section 101(b)(14) of the Water Resources Development Act of 1999 (113 Stat 280), is modified to authorize the Secretary to construct the project substantially in accordance with the report entitled 'Johnson Creek: A Vision of Conservation', dated March 30, 2006, at a total cost of $80,000,000, with an estimated Federal cost of $52,000,000 and an estimated non-Federal cost of $28,000,000, if the Secretary determines that the project is feasible.

"(b) NON-FEDERAL SHARE.—

"(1) IN GENERAL.—The non-Federal share of the cost of the project may be provided in cash or in the form of in-kind services or materials.

"(2) CREDIT.—The Secretary shall credit toward the non-Federal share of the cost of the project the cost of planning, design, and construction work carried out by the non-Federal interest for implementation of the project, if the Secretary determines that the work is integral to the project.

"(c) SPECIAL RULE.—In evaluating and implementing the project, the Secretary shall allow the non-Federal interest to participate in the financing of the project in accordance with section 903(c) of the Water Resources Development Act of 1986 (100 Stat. 4184).

"(d) CONFORMING AMENDMENT.—Section 134 of the Energy and Water Development Appropriations Act, 2006 (119 Stat. 2263) is repealed."

During conference negotiations on H.R. 1495, the Conference Committee reached agreement on language related to the Johnson Creek project, which was modeled after the House-passed provision. Congress included its modifications to the Johnson Creek project in section 5143 of the Conference Report on H.R. 1495, the Water Resources Development Act of 2007.

Now, just over one month after Congress enacted the Water Resources Development Act, section 117 of the Energy and Water bill seeks to undo our bipartisan, bicameral agreement before this language has even had the opportunity to work. The principal difference between the language contained in the Water Resources Development Act of 2007 and the language contained in section 117 of this Act is the waiver of the benefit-cost test for the project.

I oppose the waiver of the benefit-cost test, and was able to work with my colleagues in the House and Senate to retain this important protection in WRDA 2007. Section 117 of this Act arbitrarily waives the benefit-cost test—a position that was uniformly rejected by both the House and Senate during consideration of the water resources development legislation.

I continue to oppose this proposal, and will revisit the changes made by section 117 during the development of our next Water Resources Development Act in 2008.

I also strongly oppose section 123, related to the project for St. John's Bayou and New Madrid Floodway, of the bill.

Again, this language fundamentally undermines normal Corps planning and design methodologies related to the development of sound Corps projects. With regard to the defined project, this provision represents a complete reversal of well considered and appropriate law and policy. While it does not waive cost-benefit analysis and justification, or the environmental review required by National Environmental Policy Act ("NEPA"). Section 123 carefully defines the project and states ". . . the project is economically justified." This precludes consideration of appropriate and required economic analysis of the defined project.

The St. John's Bayou/New Madrid Floodway project was recently adjudicated with the judge issuing a summary judgment, in September 2007, in favor of the plaintiffs, enjoining the Corps from work on the project, and ordering the Corps to deconstruct the elements it had already built.

The judge's ruling stated: "The Corps' manipulation of its habitat model in analyzing fish mitigation *gives new meaning to the phrase 'result-oriented decision-making.'* (Emphasis added.) The Corps has obviously worked backwards from the mitigation dollars it could afford, tweaking several of its original, fundamental understandings of its mitigation obligations so as to make the project appear to return a positive benefit-cost ratio. Many mitigation decisions seem to have been based on cost alone, with a troubling disregard for the fundamental assumptions of the HEP [Habitat Evaluation Procedures] team model and HEP team member judgment. Several elements discussed above lack factual support or substantial evidence, but, more disturbingly, the Corps has demonstrated its willingness to do whatever it takes to proceed with this project—change definitions, abandon core assumptions—even if it means ignoring serious environmental impacts."

Like Johnson Creek, the Committee on Transportation and Infrastructure considered and rejected a legislative proposal to waive the beneft-cost test and environmental reviews for this project during negotiations on the Water Resources Development Act. However, the Committee did approve language directing the Corps to utilize existing statutory authority to consider the non-Federal sponsor's "ability to pay" when determining an appropriate cost-share for the project. This language was included as part of section 2019 of the Water Resources Development Act of 2007.

Mr. Speaker, these are just two of the many concerns I have with the number of legislative provisions contained in the Energy and Water Appropriations Act.

I will continue to review the legislative proposals contained in this bill, and should changes be warranted to conform the projects to existing statutory authorities or Committee policy, I will revisit these projects during the development of a Water Resources Development Act in 2008.

Mr. THOMPSON of Mississippi. Mr. Speaker, I would like to express my support for the House Amendments to Senate Amendment to H.R. 2764—State, Foreign Operations, and Related Programs Appropriations Act, 2008, Consolidated Appropriations Act, 2008. Specifically, I would like to take this opportunity to highlight and clarify language included in Division E, the Department of Homeland Security Appropriations Act of 2008 regarding the Secure Handling of Ammonium Nitrate.

Farmers who use ammonium nitrate in agriculture production normally obtain their ammonium nitrate from a retail fertilizer dealership. Any retail fertilizer dealership that stores and sells ammonium nitrate would have to register under this legislation. The intent of this legislation is "track and trace"—to provide law enforcement officials with the ability to know where ammonium nitrate is being stored and the establishment of a pre-screening process before a person can take possession of ammonium nitrate.

Retail fertilizer dealerships provide many services for farmers and one of those services is custom application. Many farmers that buy fertilizer never physically take possession of ammonium nitrate. The farmer purchases the services of the dealer who spreads the ammonium nitrate on the farmer's field. These custom application services can be provided by other businesses that would be subject to the registration requirements of the legislation.

In Mississippi and southeastern United States, nearly 90 percent of the 41,800 tons of ammonium nitrate purchased is applied by a fertilizer dealer or applicator company to the field. Only 10 percent of the ammonium nitrate fertilizer purchased in the southeastern United States is ever under the direct control and possession of the farm customer.

It is not the intent of this legislation to require individuals that use custom application services and do not take possession of ammonium nitrate to be subject to be registered. I believe this bill will enhance the security surrounding ammonium nitrate in agriculture and ammonium nitrate will be kept out of the hands of would-be terrorists.

I also ask that a letter submitted by The Fertilizer Institute (TFI), in support of the Consolidated Appropriations Act, 2008, be inserted in the CONGRESSIONAL RECORD.

Again, I support this legislation that reduces the risk that large quantities of ammonium nitrate could fall into the wrong hands while ensuring access for agriculture professionals and farmers who use this fertilizer for legitimate purposes.

THE FERTILIZER INSTITUTE,
Washington, DC, December 17, 2007.

Hon. BENNIE THOMPSON,
Chairman, House Homeland Security Committee, Washington, DC.

DEAR MR. CHAIRMAN: On behalf of The Fertilizer Institute (TFI) and our ammonium nitrate producers and retailers, I am writing to thank you for your tireless efforts to help secure passage of the "Secure Handling of Ammonium Nitrate Act of 2007."

The goal of TFI and our affected membership has been to pass legislation that would require traceability of ammonium nitrate being sold in the United States. By requiring facilities and individuals who possess ammonium nitrate to register with the Department of Homeland Security (DHS) and keep records of all sales, we believe the security surrounding ammonium nitrate use in agriculture will be greatly enhanced and our beneficial product will be kept out of the hands of those with criminal intent.

Ammonium nitrate in many areas of the country is directly applied by retail fertilizer dealers or other custom application businesses. For instance, in many cases, farmers do not physically possess or control the application of ammonium nitrate; the dealer maintains custody and applies the purchased product directly to the field. TFI believes that anyone not taking physical possession of ammonium nitrate should not have to register with DHS as this would be unnecessary and of no added security benefit when the facility having possession of ammonium nitrate is required to register and keep records.

Again, thank you, Mr. Chairman.

Sincerely yours,

FORD B. WEST,
President.

Mr. OBEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BECERRA). All time for debate has expired.

Pursuant to House Resolution 878, the previous question is ordered.

The question of adoption of the motion is divided between the two House amendments.

The first portion of the divided question is: Will the House concur in the amendment of the Senate with the first amendment printed in House Report 110–497?

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LEWIS of California. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on agreeing to the first amendment will be followed by 5-minute votes on agreeing to the second amendment, if ordered, and suspending the rules on House Concurrent Resolution 254.

Remaining postponed votes on motions to suspend the rules will be taken later in the week.

The vote was taken by electronic device, and there were—yeas 253, nays 154, answered "present" 1, not voting 24, as follows:

☐ 2235

Mr. POE changed his vote from "present" to "yea."

So (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, tomorrow, I have an appointment for eye surgery, which cannot be rescheduled.

Were I able to attend today's session in the House of Representatives, I would have voted "yea" on rollcall votes Nos. 1163, 1164, 1165, 1166, 1167, 1168, 1169, 1170, 1171, 1172 and 1173.

ORPHANS IN IRAQ AND AFGHANISTAN

(Mr. McDERMOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McDERMOTT. Mr. Speaker, over the weekend I saw a couple of movies that everybody in this House ought to see: One is "Charlie Wilson's War," which is about the Afghan war and driving the Russians out; and the second is "Kite Runner," which is a movie about trying to rescue one orphan in the Afghan situation.

On the 15th of December, on Saturday, in a conference in Baghdad, it was announced that there are 5 million orphans created by the United States of America's war on Iraq. Maybe they are off by a million; maybe it's only 4 million. But when you see that movie "Kite Runner," just imagine that being 4 million kids that are our responsibility because we invaded a country under false pretenses and we are continuing to leave a mess. Five million orphans at Christmastime.

Merry Christmas, everyone.

TOYS FOR KIDS ANNUAL HOLIDAY PROGRAM

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. This is a season for joy and for giving, and it is a season where children's eyes particularly sparkle. I rise today, Mr. Speaker, to pay tribute and thank the many, many volunteers that joined me on this past Saturday to provide, again, for the 13th Annual Toys for Kids Annual Holiday Program and Christmas Giveaway in the 18th Congressional District.

So many volunteers came from so many parts of our community. The faith community; fraternity and sorority community; the women's organizations; and schools came out to celebrate with our kids. NASA participated. Four astronauts came to celebrate and to compete, if you will, with Santa Claus.

Over 3,000 children came to receive gifts, fellowship, to eat. But this could not have been done without all of the supporters and certainly all of the volunteers. I tip my hat to all of you for bringing joy to the children's hearts and minds this past Saturday, December 15, 2007. Again, a great success for the Kids Annual Holiday Program in Houston, Texas.

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. BRALEY of Iowa). Under the Speaker's announced policy of January 18, 2007, and under a previous order of the House, the following Members are recognized for 5 minutes each.

CONGRATULATING APPALACHIAN STATE UNIVERSITY ON THEIR THIRD CONSECUTIVE NATIONAL CHAMPIONSHIP

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from North Carolina (Ms. FOXX) is recognized for 5 minutes.

Ms. FOXX. Mr. Speaker, I rise today to celebrate the third consecutive national football championship won by Appalachian State University this weekend in Chattanooga, Tennessee. The ASU Mountaineers soundly defeated the University of Delaware 49–21 in the football championship subdivision's championship game on Friday before a record-breaking crowd at Finley Stadium in Chattanooga.

In taking the 2007 FCS championship crown, ASU becomes the first football team in history to win three consecutive national championships. Friday's win was the crown jewel of an eight-game winning streak that propelled the Mountaineers to their historic "three-peat."

2007 was a historic year for football at Appalachian State. The Mountaineers began the year by defeating Michigan in an epic battle that proved to football fans around the country that this team is for real. So it is fitting that a season that began on such a historic note should end with an even greater achievement and place Appalachian State squarely in the record books.

This year, ASU went 13–2, defeated one of the most highly ranked teams in football and secured a record three straight national championships. ASU has proven that this is a team not only of skilled athletes led by a dedicated coaching staff, but that this is a team with heart and incredible drive. Friday's game showed how much the Mountaineers are committed to playing the game with excellence every time they take the field.

The Mountaineers, led by Coach Jerry Moore, notched their third consecutive championship with stellar play on both the offensive and defensive sides of the ball. They started the game by scoring on three possessions in a row. This put them out to an early 21–0 lead that set the tone for the rest of the game.

Quarterback Armanti Edwards, who suffered shoulder injuries earlier in the season, led the team by throwing three touchdowns, running for 89 yards on 18 carries and completing 9 of 15 passes for 198 yards.

Running the ball was Kevin Richardson, the Mountaineer running back, who rushed for 118 yards against Delaware in the championship game and padded the Appalachian State lead with two touchdowns. All told, the Mountaineers racked up 358 rushing yards in their 28-point margin of victory.

On the defensive side, senior defensive back Corey Lynch wrapped up an illustrious tenure at Appalachian by finishing the game with four pass breakups, making his college career total 52. This gives Lynch the NCAA Division I record for pass defense.

What makes this team all the more remarkable for their three straight national championships is how they coalesced around a combination of talent and grit that the sports establishment either ignored or overlooked while the football program at Appalachian just continued to get better and better.

There is a taste of America in the Mountaineers' football triumphs. They are a team of hardworking players who know what it means to walk the walk, but who know best what it means to earn the title of champion. This team of scholar-athletes, under the leadership of Coach Moore, has shown America that we don't need famous names or star power to win championships. What counts most are hard work and perseverance.

I salute all the players, coaching staff, and the extended ASU family for a third straight national championship. This has been a great year for Mountaineer football, and I expect that next year we will see more of the same.

☐ 2245

REGARDING THE PASSING OF CHARLES G. TILDON, JR.

The SPEAKER pro tempore (Mr. BRALEY). Under a previous order of the House, the gentleman from Maryland (Mr. CUMMINGS) is recognized for 5 minutes.

Mr. CUMMINGS. Mr. Speaker, tonight I rise to pay tribute to a great American who fought tirelessly against injustice and inequality, using education as both his sword and his shield.

Charles D. Tildon, Jr., left this Earth on December 15, 2007, at the age of 81. Affectionately known as Charlie, he was born in my hometown of Baltimore, Maryland, to Charles G. Tildon, Sr., a preacher, and Estrom Elizabeth Tildon, a teacher.

His belief in the power of education was formed at a very young age. He and his brother, Dr. Tyson Tildon, were raised to pursue excellence, despite living in an era of overt and permeating racism. Not only did they pursue excellence, but they achieved it in every task they took on.

Both brothers, now reunited in heaven, embodied the virtues of dignity, integrity, and brilliance. Charlie received a degree in biology from the then Morgan State College and graduated from Frederick Douglass High School. He had a long and successful career that culminated with the post of the president of Baltimore City College, from which he retired in 1985. Along the way, he held positions as a middle school science teacher, associate director of Provident Hospital, executive director of the Maryland Service Corps, and assistant secretary of the Maryland Department of Human Resources.

His career trajectory as well as his community engagement were fueled by his desire to help others reach their fullest potential. Charles Tildon was indeed a trailblazer. In 1969, he became one of the first African American trustees for the Maryland Institute College of Arts. He also contributed his talents and his time to several community organizations, including Associated Black Charities and Open Society Institute. He combined his leadership capabilities with a passion for justice to help organize movements for social change. He was a founding member of the organization BLEWS, the Black/Jewish Forum of Baltimore, which was created in 1978 as an effort to overcome estrangement between African Americans and Jews. Charlie Tildon understood the importance of having these two communities come together in order to build mutual trust and understanding. He recognized that we are all more alike than we are different, and that by working together we bring out the very best in ourselves and in others.

I was blessed to call Charlie my mentor and my friend. He was a role model to me and so many others. He taught us that our intellect is our greatest strength and, with it, we have a voice that we cannot be silenced. He also taught us that there are trying moments in our lives when we simply cannot remain silent.

He co-edited a collection of essays called Clairvoyance: Reweaving the Fabric of the Community for Black Folk. This visionary blueprint included discussions by some of Baltimore's most gifted thinkers about the relationship between our schools and the community in which we live. It concluded that we must become a community of learning if we are to become a society in which all people have the opportunity to succeed. Clairvoyance is just one example of how Charlie put education at the forefront of a march for human rights which everyone can join.

I fervently believe in our responsibility to create communities of learning to provide all children with equal educational opportunity and to teach them how to use their minds to overcome bigotry and hatred. Charlie helped to shape that belief.

Not only did he selflessly serve his community, but he cherished his role as a husband and as a father. I know I speak for all of those who had the privilege of knowing Charlie when I say his presence in our lives was present enough. He saw his life as a vessel to help others to succeed. I can think of no greater legacy. My prayers are with his wife of 49 years, Louise Tildon, his son Charles Tildon III, and his two grandchildren and his entire family. I thank them for sharing him with us, and I thank God for Charles Tildon's life of extraordinary service and unbounded grace.

S. 2484

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Rhode Island (Mr. KENNEDY) is recognized for 5 minutes.

Mr. KENNEDY. Mr. Speaker, tonight I am proud to stand here to speak on behalf of S. 2484, a bill to rename the National Institute of Child Health and Human Development, NICHD, after my aunt, Eunice Kennedy Shriver.

In 1962, Mrs. Shriver persuaded her brother, my uncle, President Kennedy, to establish the NICHD to ensure that all children are born healthy, and that they have an equal chance to achieve their full potential.

Since that time, NICHD has been a global leader in producing developments that improve the lives of this world's children. Specifically, research through the NICHD has helped produce results in reducing the rates of sudden infant death syndrome, reducing infant mortality and maternal HIV transmissions.

My aunt Eunice Shriver has spent her life fighting to deliver the promise of the American dream to each and every child, not only in this country, but around the world. She has never backed down from a challenge. In fact, when she heard from a mother who could not find a camp that would accept their disabled child, Eunice started a camp of her own in her own backyard, a camp for other parents who, like her, were trying to deal with a family member who was mentally retarded. My Aunt Rosemary had mental retardation, and my Aunt Eunice was inspired because of her experience with my Aunt Rosemary to start the Special Olympics. And I don't think there is anything that has probably had a more profound effect on millions of people's lives in this world than the impact that Special Olympics has had, not only on the millions of families whose lives that it has touched with those with intellectual disabilities, but also for the millions and millions of volunteers who have come in contact with Special Olympics and who found their lives moved and transformed because of their experience with Special Olympics.

The Special Olympics organization has given athletes and their families the courage to participate in competition while always remembering that success is not measured by how often you win but by how brave you are in the attempt.

Beyond providing athletes and their families with new and unique opportunities in competitive sports, the Special Olympics also established the Healthy Athletes Initiative, which increases health care to athletes at events all around the world. During 2006, 600 screening events took place, and 135,000 athletes received a screening. These screenings provided not only critical care to athletes; they also provided appropriate treatment, and also an opportunity for those athletes to get the rewards of getting the best in treatment that are too often taken for granted by the rest of us.

In addition to that, the data from these screenings are collected and used to promote health policies that inform those of us here in Congress on how we can better develop programs here in Congress for those individuals with intellectual disabilities.

The incalculable benefits resulting from this program are just a small example of how my Aunt Eunice has altered the future of millions of children in our own country and around the world.

I just want to say once more, in a personal sense, that she has done so much to destigmatize the stigma of those with mental retardation. And, as someone who is fighting for parity for mental health coverage, she has also worked so hard to destigmatize mental illness, something that often accompanies those families who are depressed when they find that one of their family members has been struck with mental retardation. She has been someone who has fought for the human spirit and the dignity of the human person in every sense of the word. And, due to her tireless advocacy, our country has been better off for all of her devotion and work.

So, it is with my great honor and pleasure that today I was able to join my colleagues in seeing that the National Institutes of Health saw the naming of the National Institutes for Childhood and Development named after Eunice Kennedy Shriver for all of the great work that she has done on behalf of every child born in this country and around the world. Congratulations, Aunt Eunice. It is so well deserved.

HONORING THE LIFE OF FORMER CONGRESSMAN HENRY HYDE

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ) is recognized for 5 minutes.

Ms. WASSERMAN SCHULTZ. Mr. Speaker, I rise to honor the life and memory of Congressman Henry J. Hyde, the Representative of the Sixth District of Illinois from 1975 to 2007. Congressman Hyde was a distinguished and well-respected member of this body, serving for 32 years in the House of Representatives.

During his tenure, Congressman Hyde served honorably as the Chairman of the Judiciary and International Relations Committees and contributed much to this Nation. My thoughts and prayers go out to Congressman Hyde's family and friends during this difficult time.

While Congressman Hyde's accomplishments are many, I want to take a moment to share one that is both emblematic of the mark he left and of which I am particularly grateful. During the 109th Congress, I had the pleasure of working with Congressman Hyde to help spur the creation of the first Jewish American Heritage Month.

As the lead Republican cosponsor of the House Resolution, Congressman Hyde was instrumental in garnering the support of the President of the United Sates and Republican leadership in the House, especially that of Speaker Hastert.

With support from around the country, the House and Senate passed resolutions in early 2006 urging the President to establish American Jewish History Month. President Bush then proclaimed the first Jewish American Heritage Month in May 2006 so that Americans could come together to celebrate the many contributions that Jews have made to the fabric of our society.

Thanks to Congressman Hyde's commitment and dedication, American Jewish culture and heritage is now celebrated each May by our Nation. In appreciation of this leadership, and in honor of Congressman Hyde's lifetime commitment to serving his country, I have requested that a tree be planted in Israel dedicated to his memory.

I again express my deepest sympathy to Congressman Hyde's family, friends, and the people of Illinois.

FISCAL IRRESPONSIBILITY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, the gentlewoman from Tennessee (Mrs. BLACKBURN) is recognized for 60 minutes as the designee of the minority leader.

Mrs. BLACKBURN. Mr. Speaker, I appreciate the recognition, and I appreciate the opportunity to be here this evening to speak with our colleagues and certainly to have a conversation with the American people about what has transpired on the floor of this House today.

I know most families are beginning to look toward the Christmas season, and they are looking toward a winter holiday and spending time with family and with friends. And many of them have worked diligently to meet their deadlines to be certain that they have time set aside for such an observance.

Mr. Speaker, I wish I could say that the leadership of the House has worked that diligently and is focused on meeting those deadlines so that we would all be spending that time with our families. But indeed, we have found that is not the case. In unusual moves and through an unusual process, we are still at work, because we find that a budget has not been passed that should have been done before the 1st of September but didn't.

So, what happens with this the process when you don't get your work done, when you don't meet your deadlines, when you disregard what you are charged to do and the duty that you are to fulfill? You find that you get backed into a corner. And, Mr. Speaker, when that happens, then you have to start working your way out of it.

Well, in the House of Representatives, when we are backed in that corner and we are unable to fulfill our work in a timely manner, instead of passing our appropriations bills and funding our government one bill at a time, we decide we are going to roll it all together, and then we have what is called the omnibus. And it is a great big spending bill, a great big spending bill, Mr. Speaker, where you throw everything into this that your heart could possibly desire. It is better than any Santa sack in town.

Now, Mr. Speaker, I would like to be certain that everyone realizes this big bill, this 3,565 pages of bill that weighs 34.4 pounds is indeed a Santa's sack loaded with pork and with earmarks, over 9,200 earmarks.

In addition to that, Mr. Speaker, I think that it is fair to say that this also is a symbol. It is a symbol of the broken process that this House has gone through in arriving at a budget. It is a symbol of the broken priorities that exist. And, indeed, it is a symbol of the broken promises of the leadership of this House to not only the body of the House but the American people.

I have some colleagues joining me tonight to talk a little bit about what we find in this 34.4 pounds, 3,565 pages. And, Mr. Speaker, I know we are going to talk about energy and the environment. I am saddened to know that we have had a lot of trees give their life to print these bills this week.

I would like to recognize the ranking member of the Budget Committee, Mr. RYAN of Wisconsin, for some remarks on this legislation.

Mr. RYAN of Wisconsin. I thank the gentlelady for yielding, and I thank her for her leadership on this.

As we take a look at this bill that just passed the House not 20 minutes ago, I think it is important to know what is in this piece of legislation. This piece of legislation weighs about the same amount of weight as my 4-year-old son does. This piece of legislation is 3,565 pages. It is 9,200-plus earmarks, 300 of which we just found out about today.

This bill costs $515 billion. This bill does a lot for a lot of Federal workers in the holiday season. It makes sure that all those Federal workers working at all the different government agencies have their budget for the year.

But what this bill does not do going into this holiday season, it does not give those soldiers in Iraq fighting for our freedom on the frontline of the war on terror, it does not give them one penny. It does not give them 1 minute's worth of comfort so that they have the resources, the tools, the body armor, the bullets, the gasoline, the rations, the support that they need to keep us safe and to fulfill our mission in fighting the war on terror where the epicenter is in Iraq.

□ 2300

It is a shame that we spend all of this time putting all of this money, all of this pork for all of these government agencies, making sure that bureaucrats here in Washington are comforted during this Christmas season, but not a penny to support our troops in harm's way in Iraq. That is a shame.

What is also a shame is this bill was dropped on the table today and passed today. Not a single Member of Congress read this entire bill; yet it passed and is on its way to becoming law.

It is also a shame that it is putting our Nation on a dangerous fiscal path. It is the beginning of the week, and we are going to put 10,000 earmarks into law. At the end of the week, we will pass more legislation that will cost billions more. I am worried we may not actually patch the AMT because the majority here is insisting on having permanent tax increases to pay for that.

So while we have already seen the delay in Congress is costing people a 2-month delay in their refund checks from the IRS, if this Congress keeps on the track they are on, they will raise taxes on millions of Americans and businesses just to try to provide for a temporary prevention of a tax increase on 19 million additional taxpayers, 19 million taxpayers who already, because of this delay, will see a delay in their refunds.

Mr. Speaker, this is not a good moment for the fiscal policy of our country. This is not a proud day for the House of Representatives to thump a 34-pound, 3,565-page bill on the desk and vote it out. But worst of all, it is not a good day for our soldiers, sailors, airmen and marines who are in the fight, who are on the front lines, who want our support, who deserve our support. That should have been taken care of before any single Member of Congress got their pork. Unfortunately, it wasn't, and that is what passed the House here this evening.

I see we are joined by several other colleagues who want to make comments on this. We have leaders here in the House of Representatives on fiscal conservatism, on fiscal responsibility, and I thank the gentlewoman who is controlling the time and thank her for her tireless leadership.

Mrs. BLACKBURN. I thank the gentleman from Wisconsin for coming and speaking. We are members of the Republican Study Committee. If you want to find out a little more about what is in this bill, you can go to our Web site, which is House.gov/hensarling/RSC, and find out a little bit about the details in this bill.

As the gentleman from Wisconsin pointed out, this is serious business. We are responsible for the budget process of the House. The House holds the purse strings for the Federal Government; and it is a duty that we, many of us, take very, very seriously.

Mr. Speaker, it is of tremendous concern to us when a bill is filed at 12:30 a.m., the dark of night, this bill gets filed and within 24 hours this 3,565-page bill is voted out. And as the gentleman said, there is no funding for our troops on the ground in Iraq who have been making steady, consistent progress. What a disservice to the troops and to the American people.

I want to recognize the gentleman from Texas (Mr. HENSARLING), who is chairman of the Republican Study Committee. His Web site, House.gov/hensarling/RSC, that is where you can get a copy of what is in this bill; the $515 billion that is contained in here, plus you can find out where some of those gimmicks, budget gimmicks are; plus, you can take a look at some of the emergency/nonemergency spending that is also in here just so that the majority can spend a little bit more money.

But I would like to yield to the gentleman from Texas who chairs the Republican Study Committee, Mr. HENSARLING.

Mr. HENSARLING. I thank the gentlewoman for yielding. And, again, I thank her for her leadership in this institution, a very clear, concise, conservative voice on this House floor, particularly when it comes to trying to save the family budget from the onslaught of the Federal budget.

As my colleague from Tennessee has pointed out, the House is completely broken. It is completely broken and felled under this new Democratic leadership. They said they would do better if they were in charge. So what do they bring us today? Today they bring us a 3,565-page spending bill which people have been able to see beside my colleague's speaking position over here, weighing in at 34.4 pounds, roughly the weight of my 5-year-old daughter.

It spends $515 billion of the people's money, and the Democrat majority brought it to the floor tonight and devoted less than 1 hour of floor time debating this omnibus bill. This body spent about a minute debating every $9.1 billion being spent in this bill.

Now, that is money if left in the hands of the families of America and the small businesses of America, who make the jobs and have to work hard to send their kids to college and put food on the table and put roofs over their heads, that money is coming from them; and we spent less than a minute debating $9 billion. The minutes went by, and all of a sudden this House passed a $515 billion bill.

Now, Mr. Speaker, when the Republicans were in charge, unfortunately, my party occasionally brought an omnibus bill to the floor, and I personally voted against each and every one because I don't believe that was the vision of the Founding Fathers. It is not the way we should run this government. In fact, I was at a town hall meeting in my district not too long ago and a gentleman from the Athens, Texas, in the 5th Congressional District of Texas, said: Don't you think we would have a much better government if Members of Congress were actually required to read the legislation before they vote on it?

What human being can read 34.4 pounds, 3,565 pages in one day? That is right, Mr. Speaker, this bill was just given to us today. In the early morning hours, this bill was laid upon this institution.

So there is no transparency here. It is interesting to me that when the majority party was in the minority, they screamed to the rafters about this process. Listen to what Speaker PELOSI, then minority PELOSI had to say about this process: "The Republican leadership forced through a so-called 'martial law' rule that required a same-day vote preventing Members of Congress from having enough time to read legislation. They spent hundreds of billions of dollars and it was thousands of pages long. This arrogance of power is part of a pattern of abuse."

Now that is what Speaker PELOSI said 3 years ago when she was in the minority. Now that she is the Speaker, does this mean she is imposing martial law on this House with this process that she decried 3 years ago? Is she now bringing a spirit of arrogance to this institution which she decried 3 years ago? Is she part of the pattern of abuse that she decried 3 years by forcing Members of this institution to vote on this monstrosity?

So on process alone, this bill ought to be rejected. But it really ought to be rejected because it puts us on a path of extreme fiscal irresponsibility. Already today this government is on automatic pilot to force the largest single tax increase in American history on working families all across America. It was included in the Democrat budget. More spending fosters more taxes. And that's just the start, Mr. Speaker, because after imposing the single largest tax increase in American history in the Democrat budget, with their so-called "mother of all tax increases," they are going to once again make history by imposing the single largest tax increase in American history yet again, perhaps twice in a 12-month period. I am sure that will break some kind of record here in the House of Representatives.

But don't take my word for it. Listen to the head of the Congressional Budget Office, the head of the Government Accountability Office, the Federal Reserve chairman. They are all going to tell you the same thing, Mr. Speaker, and that is without changing the spending patterns of the Federal Government of which this omnibus represents some of the worst, we are on automatic pilot to double taxes on the next generation. Double. And the average American family pays roughly $22,000 a year in taxes. That will go to $44,000. How many American dreams are going to be squashed by a tax burden of that magnitude, represented by that 34.4 pound omnibus spending legislation which will flatten the American taxpayer like a bus.

It is full of gimmicks from people who said they were going to bring the most honest and ethical Congress in the history of mankind to this institution. They take a rubber stamp and they stamp "emergency spending" on anything that moves because they have this little clever device that allows them to avoid any kind of budget discipline when they do that. They have this gimmick called "advanced appropriations" that would make an Enron accountant blush, but they use it to once again evade any spending discipline whatsoever in this institution.

They said they would clean up earmarks and this is chock full of earmarks. Mr. Speaker, if you look closely, maybe some of these earmarks pass the legal test. Maybe they even pass some ethical test, but all too often the American people are seeing campaign cash going into the institution on this end, and they are seeing earmarks coming out the other end. It doesn't meet the fiscal responsibility test, and it doesn't meet the American taxpayer smell test. And that bill is chock full of it. Out of 3,565 pages, 692 pages are devoted to individual congressional earmarks, which many of the American people believe serve no other purposes other than to get Members of Congress reelected.

Again, the Democrat majority said they would clean it up and there would be transparency and accountability. We haven't even had time to read the 692 pages. We don't know what is in there. Maybe there is another museum to a Member of Congress, as the chairman of the Ways and Means Committee managed to earmark $2 million to create a museum to himself.

One final point before turning this over to some of my other able colleagues from the Republican Study Committee. I want to harken back to a point made by the gentleman from Wisconsin (Mr. RYAN), ranking member of the Budget Committee. Earlier tonight the Democrat majority leader came to the floor and said, We have a responsibility to fund our government.

Well, I don't know everything that is in that bill, Mr. Speaker, but I know something that isn't in that bill. There is no funding for the men and women fighting for freedom in Iraq. Not one penny. Now how do you have a bill that ostensibly funds the United States Government and somehow you leave out the men and women who wear our Nation's uniform? They wear our Nation's uniform. They come from the small towns and factories and fields from all over America. Their paychecks come from the same United States Treasury that Members of Congress' do. Somehow the Democrat majority managed to put into their 34-pound bill thousands of earmarks. They managed to fund every single bureaucrat at the Commerce Department, but they can't find one penny for our brave men and women fighting on the front lines of freedom in Iraq.

Mr. Speaker, maybe they don't believe in the cause, but don't they believe in the soldiers, sailors, airmen and marines?

☐ 2315

There is no way that any Member with any credibility can come to this floor and say we are presenting a bill to fund the Federal Government but, oh, we don't really consider members of our armed services fighting in Iraq to be members of our government. I just don't know what planet some of these people come from, Mr. Speaker, and that's just shameful. It is a shameful moment this year in the history of the House to present this spending abomination, chock full of earmarks that ignore our men and women in harm's way in Iraq. And it's one of the lowest points of this entire year for this Democrat Congress. And I hope that the American people are paying very special attention to what is going on here tonight.

I appreciate the gentlelady, again, for her leadership for taking the time to help elaborate on really this heinous piece of legislation that came to the floor earlier, and I want to thank her. And I want to thank all the members of the House Conservative Caucus, the Republican Study Committee, the largest caucus in the House, for always being ready and vigilant to fight for freedom and to work for less government and more freedom and more opportunity, and that's what the Republican Study Committee is all about. And I appreciate the opportunity to share in this Special Order, and I yield back to the gentlelady from Tennessee.

Mrs. BLACKBURN. I thank the gentleman from Texas. And again, Mr. Speaker, if someone would like to pull down the summary and get the information on this bill, house.gov/Hensarling, H-E-N-S-A-R-L-I-N-G, /RSC, and they can pull down our summary here. H.R. 2764 is the omnibus. Not a minibus. It is a great big omnibus, all 3,565 pages, and they can see for themselves a little bit about what is contained in here and what is not contained.

And as the gentleman from Texas said, the fact that we are a Nation at war and we have men and women in the field in Iraq who are fighting for our freedom, fighting for our ability to be here and to serve in the U.S. House of Representatives, fighting for our security so that we can safely and peacefully celebrate Christmas and the holiday season, and we do not honor their service by funding that work. It is a serious error. It is a serious omission.

At this time, I would like to yield to the gentleman from Arizona (Mr. SHADEGG), who has been chairman of the RSC in times past. He serves on the Energy and Commerce Committee. He is one of the leading fiscal conservatives in this body, and I yield to him for his comments on the omnibus.

Mr. SHADEGG. I thank the gentlelady from Tennessee for yielding, and I want to commend her for her work. You know, there is a story here tonight. There's a story the Nation needs to know. There's a story of an institution charged with protecting this Nation and carrying out the responsibilities of this government, and it is a story of shame. It is a story of failure. It is a story of an institution that's supposed to be doing its job and isn't.

And I commend the gentlelady from Tennessee (Mrs. BLACKBURN) for her efforts to bring that story forward, to point out the 3,565-page bill that was laid on us less than 20 hours ago when we were given less than 20 hours to pass it.

But the real story here, I would suggest, is a story that some of my colleagues have already commented on, and that is the story of 9,200 earmarks in this bill. Now, I suppose if you're an average American you're sitting back at home and you flip through the TV channel and you catch C–SPAN and you know generally what an earmark is. But let me tell you what it is. An earmark is an effort by a Member of Congress to name some little project that will somehow benefit, or they can make an argument that it will benefit, them or their constituents in some way, and yet, sadly, when you examine those earmarks, you find one thing is true. Every single one of them is self-serving, designed to get that Member of Congress re-elected, and every single one of them is put in there with huge effort.

Now, in this bill, we have 9,200 individual Member projects, earmarks, if you will, inserted in the bill. You heard my colleague, Mr. RYAN from Wisconsin, point out that 300 of those Member projects or earmarks were dropped in this bill just last night. That is to say, they've never been seen before.

Now, my colleague from Texas, Mr. HENSARLING, pointed out that none of us could do what I was asked to do when I ran in 1994. When I ran for the United States Congress in 1994, my constituents said to me, Congressman, we want you to go back there and promise us you'll never vote for a bill that you haven't read. Ladies and gentlemen, no one can read a 3,565-page bill in 20 hours. It can't be done.

I had a conservation with a constituent this weekend when I was home, and he said to me, because I was complaining to him about earmarks, about misspending, he said, Well, I thought that the Democrats cleaned that up. I thought that practice ended. I thought they'd ended that. I thought the reforms had changed that.

Well, the gentlelady from Tennessee and the gentleman from Texas and my colleague from Wisconsin have pointed out the story of the night. The story of the night is all the talk about reform was just that; it was talk. Reform has not happened. If the American people believe that they elected a new majority to this Congress to end wasteful spending, it didn't happen. If they believe they elected a new majority to Congress to get things done in regular order so we could review the bills and read them before they were voted on, it did not happen. If the people across America believe they elected a new majority, and that new majority reformed the rules to end earmark abuse, it didn't happen, because those earmarks are here.

HILLARY CLINTON's hippie museum, it's here. And God knows what else is in this bill, because the 3,565 pages which sit right there cannot possibly have been combed by all of us in this time.

What you have heard is that while Congress could find time to put in 9,200 earmarks in this bill, and combined with prior bills, take the total earmarks for the year to 10,300, roughly, roughly $17.6 billion in Member projects and earmarks, we could find the time to do that. All the Members of Congress could, you know, write out their list requests and say, I need this project and I need that project and I need this project, and HILLARY CLINTON needs a hippie museum, and God knows what else is in this bill. But we couldn't find time, as my colleagues from Texas and Tennessee and Wisconsin have pointed out to you, we couldn't find time to put money in there for our soldiers in Iraq.

Oh, we could find time to renovate the U.N.'s headquarters in New York. We could find time to essentially overturn the Secure Fence Act by making it almost impossible to build that fence. We could find time to craft 692 pages of individual Member requests, little requests, fund this so that I look good and I get re-elected. We could find time for that. We could find time for 9,200 of those.

We could air-drop, that's right, you heard, air-drop earmarks. What does that term mean? Well, an air-drop earmark is an earmark that is inserted in a bill after it has left both the House and the Senate. How many of those are there in this bill that nobody's ever seen, perhaps, but the author of the bill? There are 300 of those. So we could find time for 9,200 earmarks, 300 of them air-dropped, never seen before. No American, no average American back home has had any chance to review them. We could find time for that, but we could not find time to fund the war in Iraq.

I commend the gentlelady for bringing these facts forward. I think it is a story that America needs to know. They need to know that this Congress, as the gentlelady from Tennessee pointed out, was supposed to do this work clear back last August, last September, and be done with it. But they couldn't find time to do it until now, almost Christmas Eve. But by gosh, they could find time for their earmarks, their pet projects. But no time for the Nation's defense.

I commend the gentlelady from Tennessee. I appreciate her yielding me time. I think this is a story the American people know about, need to know about, and I think it's worth saying here one more time. My friend TOM COLE from Oklahoma said, "Earmarks are a gateway drug to higher spending. I suggest this bill proves that to be true. Once again, earmarks pave the way for higher spending. And as my colleague from Texas pointed out, that means higher taxes, less money in the pocketbooks and wallets of the American people, more money in the hands of the government to, frankly, misspend in ways to try to get themselves re-elected. I think it's an important story. I think it's a sad day, and I commend the gentlelady for asking the time, late at night to take her time and to work hard to make sure that some Americans know the abuse that's going on, the outrages, the hundreds of thousands of earmarks and the hundreds of thousands of air-dropped earmarks, special projects nobody has ever seen that are put into this bill. And I commend you for the job you're doing.

Mrs. BLACKBURN. I thank the gentleman and I thank him for his comments on this.

Mr. Speaker, I think that it is just one of these occurrences that has happened tonight that you just find almost inconceivable, that the majority could have filed a 3,565-page bill in the middle of the night and then bring everybody back to Washington and vote it.

Now, as the gentleman from Arizona said, the fiscal year started September 1. This is something that should have been done last summer. But, instead, they wait until Christmas week. They file this bill in the middle of the night. They don't give people time to read it. And then, as we do begin to read it, we find what we thought at first was going to be about 7,000 earmarks, read a little more, the number is growing to 8,000. Then, Mr. Speaker, lo and behold, we get up to 9,000. Then it goes to over 9,200. We find that 300 of those earmarks had not been discussed by anybody. They just appeared out of thin air, like magic. They just appeared and got written in to this bill that passed the House tonight.

That is not fiscal responsibility. That, Mr. Speaker, is what you call fiscal irresponsibility. It is the symbol of a broken process, with broken priorities, and it is broken promises. That is something that is very troubling to us as we are here this Christmas week hard at work defending the American taxpayer. And the American taxpayer has no better individual standing to defend them than the gentleman from Georgia. Mr. WESTMORELAND has worked with and chairs the Floor Action Team for us in the minority and does a wonderful job in that capacity. He is an active member and a part of the leadership of the Republican Study Committee. And I yield to him for his comments on the legislation.

Mr. WESTMORELAND. I want to thank the lady from Tennessee for her leadership in this and for her taking this late hour to come and be part of a group, the Republican Study Committee, that believes in fiscal conservatism, and are willing to stand up and fight, to be called names in this body. In fact, I think the lady and myself and others that have spoken here tonight have been called the fringe because we stand up and want to debate these issues and want to bring the truth to the American people. And to the lady from Tennessee, I just, you know, I think that we need to clarify to the people and let them understand what kind of position, not only us, but this whole House was put in today because less than 24 hours ago, at about 12:30 this morning, this bill, over 3,500 pages was filed.

□ 2330

Now, I don't know about the rest of you, and I'm sure the gentlelady from Tennessee, but I was in the bed then, sound asleep, as I'm sure most people were. I got up this morning and got dressed and got on a plane and came to DC, but the first time this bill was debated and just the rule on this bill was about 5:30 tonight.

So put yourself in this position. Your financial officer for your company comes in and hands you a bill like this and says could you look at this and let me know if this is okay to finance this company for the rest of the year, and I need to know by about 8 o'clock tonight. Now, I think it would be impossible for them to do it. I think it would be impossible for any of us to do that.

It's been impossible for us to take 3,500 pages, something that weighs over 34 pounds, and try to consolidate that into information that we can base a vote on. It's impossible.

Talking about $515 billion. Now, when I was in the Georgia legislature, our State budget for 9 million people was a little over $16 billion, and I thought I realized how much $1 billion was but it was not until a friend of mine, Naomi Morgan, sent me an e-mail today, in fact, and pointed out several things to me.

One billion, if 1 billion were seconds and we went back 1 billion seconds, we would be in 1959. 1959 is 1 billion seconds from right now. And when you're talking about that, we just got through passing a $515 billion bill in less than 24 hours, that's scary, isn't it? And.

The other thing is 1 billion minutes, if we went back 1 billion minutes from now, Jesus would be walking the earth. Jesus would be walking the earth 1 billion minutes ago.

Sometimes we lose perspective. We've been up here too long when we just throw around the word "billion," but we were asked today to vote in less than 24 hours on a 3,500 page bill, weighs over 35 pounds, and contained $515 billion worth of spending.

You know, that shows me that the process is broken, and when the process is broken, the product is flawed. This process has been broken.

Now, we were lied to or misled. I'd hate to think that they purposely lied, but I think they misled us and the American people, the majority party, on the first day when they talked about a new open process, a new bipartisan spirit. See, I represent about 700,000 people, as every Member in this body does, and those 700,000 people want to have some type of input into the situation, and you know, unfortunately, I've not had any input in this bill. There has not been any amendments to be allowed.

We could not look at all the 9,000 or so earmarks in this bill to see if they were justified, but I do want to tell the American people, because one of the things other than spending too much of their money has been illegal immigration. Now, that is a high topic, and I want the American people, and I think this is very important because every town hall meeting I have and I don't know about you, every town hall meeting I have, every teleconference I have, the hottest topic that we have is illegal immigration. Now, this should really at least let the public know the priorities that the majority party has.

$10 million in this bill in that 3,500-page bill over there, $10 million of it went for emergency spending for defense attorneys for illegal immigrants. $10 million of that bill goes for defense attorneys in emergency spending for illegal immigrants; yet we did not fund our troops in Iraq one dime.

Mrs. BLACKBURN. I think that this is such an important part of this bill because we have talked a good bit about our troops in Iraq not being funded in this bill, and then when we talk about the gimmickry, and just I hate to even use the term. It's almost like a sleight of hand.

Mr. WESTMORELAND. Smoke and mirrors.

Mrs. BLACKBURN. Smoke and mirrors, it is indeed, where they come in and they're going to make it very difficult to build the fence.

You know, they have $2.7 billion for border security funds in the homeland security accounts, and then they have another $225 million for GSA related to the border fence. Then they turn around and there is $10.5 million for defender services for illegal immigrants. And we know that what they've done is to go in and make it very, very difficult.

The bill releases $650 million of this funding for the border fence only after, and that is where they're setting up roadblock, only after the Appropriations Committee is satisfied with the Department of Homeland Security's expenditure plan and that 15 conditions listed in the bill are met.

Now, as the gentleman knows, every time we do a town hall meeting people are so concerned about the loss of this Nation's sovereignty, about the loss of security in our communities. Because the illegal immigration issue is not addressed, every State's a border State, and every town is a border town, and now we see that they're playing tricks. They're going to say, well, we're going to go under emergency money and we're going to put it in here that it could be released if we decided it was an emergency, and oh, by the way, we're going to release part of it only after the Appropriations Committee is satisfied.

Well, what's satisfied one person's requirements may not satisfy another because it is subjective, and that will be released at that time. And then you have got 15 conditions. Well, you can make it impossible to ever satisfy a list of conditions, Mr. Speaker, if your goal is to block something. If your plan is to fail, you can develop a plan to fail, and that is what we see in this 3,565 pages of a budget document is how to fail.

And I yield back to the gentleman.

Mr. WESTMORELAND. I was going to say, and trust me, what you were just talking about as far as meeting these requirements, trust me, this $10.5 million that we're spending on these defense attorneys for these illegal immigrants, trust me, they're going to law you up and keep us from building that fence.

And you know, now when my constituents say, Congressman, why aren't we building that fence, why aren't we securing the border, then I've got something I can tell them now. I can give them that 3,500-page bill, of course there's no telling what it would cost them to get a copy of that, 35 pounds of paper there, and say it's in this bill that we will build the fence but only under certain conditions.

And I think the gentlelady from Tennessee, or anybody that's had a town hall meeting, would agree that these people do not care about the conditions. The only conditions they want is they want a fence. They want a border. They want a secure country because no country without secure borders is secure.

And so that's what the American people want, not stumbling blocks and not something big enough to hide $10.5 million in for defense attorneys in emergency spending. Now, this is emergency spending for the illegal immigrants. We've got some true emergencies, but it's not in defending them. It's in allowing them to come here.

So I just hope that the American people, that tonight somehow that we have made a difference or maybe had at least some eye opening with some of the information that we've given them about this bill over here that we were asked to vote on today, and I hope that they will understand that this is not an easy process.

But the process is broken, and I will be honest with you, it was broken when we were in charge, but it's lost another wheel. We may have only been one wheel short when we were in charge, but trust me, both axles are broken right now, and it's just being drug along the ground. It is broken. The product is flawed.

We need to start over. I would hope that the President would veto this bill. I would hope that he would veto this bill and get us back to the table so we can take some of these things back out, save the taxpayers some money.

But I do appreciate, again, the leadership of the gentlelady from Tennessee and her willingness to come here this late at night and try to explain some of this to the American people so that they can have a better understanding of some of the challenges that we're faced with and some of the opportunities that the majority party is taking with smoke-and-mirror bills like we passed today.

So I want to thank the gentlelady.

Mrs. BLACKBURN. Mr. Speaker, I thank the gentleman from Georgia, and you know, I think it is so important that, once again, I remind individuals at house.gov/hensarling/rsc you can get a little bit of a summary of the bill.

Of course, you know, it's one of these things where, Mr. Speaker, we have had it for only a very short period of time because it was less than 24 hours ago that it was even put up on-line for Members to be certain that they had the chance to look at it. I was one of those Members up. I was at home working away, trying to get things finished to get some of my Christmas cooking done and my Christmas ironing done and ready for the holiday season with my family. And I will tell you, it is of such concern to me that we see the manner in which this has been constructed and pulled together.

I do hope that the American people will sit down and look through some of this and see where this money is going. My goodness, when you see $11 billion for emergency designated spending and then you see that the budget's criteria for emergency spending is sudden, unforeseen, temporary, urgent, et cetera, and that is where you see some of the gimmickry begin to come in.

Of course, these are things that we all agree with. There's money for drought relief, which that's been very difficult, but $20 million for farm service agency salaries and expenses, that should have been something that was anticipated.

Eight million dollars for Department of Justice administrative review and appeals; $10 million for legal activities, salaries and expense; $7 million for U.S. attorneys, salaries and expenses; $15 million for U.S. marshals, services, salaries and expenses; $143.5 million for FBI salaries and expenses; $2 million for Drug Enforcement Agency, salaries and expenses; $14.5 million for Court of Appeals, salaries and expenses. Mr. Speaker, salaries and expenses should be something that was anticipated. I'm not certain that meets the criteria of emergency. Emergency should be something that is unforeseen, that we didn't know was going to happen. Now, if we have people on our payroll and we do expect them to get a paycheck, then that salary and the related expenses and benefits are something that we should be planning for.

Then there's the $10.5 million that the gentleman from Georgia and I have discussed where you set aside the money for illegal immigrants to be able to have attorneys to defend them. And then there's the ruse of the border fence with the money that's being appropriated but then you can't get to it.

There's $300 million for wildfire suppression and $195 million for the Minnesota bridge accident, which occurred many months ago.

□ 2345

And here is $100 million for Presidential security at political conventions.

Mr. Speaker, it may be a news flash. This may be totally new to many people, but we have a political convention every 4 years. This is something we should be planning for. It should not be an emergency expense that we are going to have to have Presidential security at the political conventions. Cities go to great lengths to bid to get these conventions, to be able to hold them. We know that every 4 years we are going to have a Presidential election. This is something that is anticipated. It is not an emergency that is unexpected.

Mr. WESTMORELAND. Will the gentlewoman yield?

Mrs. BLACKBURN. I will gladly yield.

Mr. WESTMORELAND. You just told me something new when you were reading out those salaries in there under emergency spending. So we are paying district attorneys and judges and other people these salaries in emergency spending, but yet we are not funding our troops in Iraq. Is that what you're telling me?

Mrs. BLACKBURN. Reclaiming my time, that is what we have found. That is all a part of the emergency spending component. That's why I think it's so interesting when you go through and read the summary on this bill because you find that in order to carry out the ability to spend a little more on programs where they want to spend more, what they have done is to shift the cost. And so if you can put it under emergency spending and then not have to submit it to the PAYGO rules, then it allows you to be able to spend a little bit more.

Mr. WESTMORELAND. So this is more smoke and mirrors, is what you're saying?

Mrs. BLACKBURN. It is more of the smoke and mirrors, and I am sure it was concocted in a smokefilled room. But it just doesn't make good sense, and it's just not common sense in the way it ought to be done when you look at your different allocations and your different lines. And certainly there are many people listening to this who sit on county commissions and city councils and they are in State legislatures and they are listening to this and they are pulling down this budget document and they are saying, We could never get away with something like this.

Mr. WESTMORELAND. The funny thing is if we had corporate officers that were running their companies like that, we would have them in front of the Government Reform Committee and having a hearing on them. It's embarrassing that we are running our government the way we are running it, and yet we are having hearings about these corporate officers that are doing things in the dark of night and in smoke and mirror, phony documents that they're doing.

Mrs. BLACKBURN. Yes. Reclaiming my time, the next segment that I have here is after the emergency spending, which I was reading through, then we get into the budget gimmicks, and you see how they have pulled in $10.2 billion in gimmicks that are being used to artificially lower the cost of the bill. And it goes through this with some transportation funds; the crime victims fund; advanced appropriations, which sounds just a little bit sneaky there. It increases some funding for the BRAC account, and there's a way that's kind of shifted and moved around.

And then following that we get into each of the individual Departments, each of the appropriations bills, with the Agriculture bill, Commerce-Justice-Science, Energy and Water. We go through each of these and list where some of the provisions are and some of the increases. There is an increase in here for salaries and expenses at the Food and Drug Administration from $1.57 billion to $172 billion. An increase for conservation programs. The Legal Services Corporation, the LSC, it gives $350 million for them, $1 million over the fiscal year 2007.

Now, the Legal Services Corporation is free legal aid. They represent individuals that sue the government. So we are going to increase their funding, but we are not going to fund our troops, and we are not going to get that fence built and secure that border. So in here is increased funding for energy efficiency and renewable energy programs from $1.47 billion to $1.72 billion.

Mr. WESTMORELAND. Fuzzy math.

Mrs. BLACKBURN. And there again you see that we are increasing that. We are increasing the Department of the Interior programs, but we are not funding our troops. We see increased funding for the IRS. They are going from $10.60 billion to $10.89 billion, and it is an increase of $295.3 million or 2.8 percent over their fiscal year 2007 numbers. So we are going to increase money for the IRS, but we are not going to get that money to our troops.

Mr. WESTMORELAND. Will the gentlewoman yield?

Mrs. BLACKBURN. I will gladly yield.

Mr. WESTMORELAND. I don't know how your constituents are going to feel about that, but when I go home and tell my constituents that we increased the IRS spending more than the normal 4 percent, or whatever it is, we have increased it double, and yet we didn't want to give any money to our troops in Iraq, they're going to be kind of mad about that. But then when I tell them they put up roadblocks about building the fence and we didn't fund our troops in Iraq, they're going to be upset about that. And then when I tell them about the $10 million in emergency spending for defense attorneys, I think they are really going to be mad about that.

I hope the American people get a good grip on this.

Mrs. BLACKBURN. When I go back and say they were going to increase funding to the IRS and it would be $10.89 billion, my constituents are going to say that's why you need to get rid of the IRS, and that's why we need to have a fair tax.

Mr. WESTMORELAND. Absolutely.

Mrs. BLACKBURN. And that is what we will hear from our constituents.

And the list goes on and on, as you can see. I have got plenty of pages that we could flip through. We even have title X and family planning money that is increased by $300 million. And I find it so very interesting that they go in and they increase the title X and the Family Planning money, but guess what? What they didn't do was to increase the money for the abstinence education program. Now, how about that, Mr. Speaker? That funding was held level. It was held level. And Family Planning and Planned Parenthood will get big increases, but abstinence education will not.

Well, Mr. Speaker, as I have said several times tonight, budgets are about priorities. Budget documents tell you where you want your emphasis to be. And what we see from this majority is a budget process that is broken, with priorities that are broken, and promises that are broken. And we have a 3,565-page bill that weighs 34.4 pounds when you print it out. It contains over 9,200 earmarks. There are lots of pet projects, lots of pork in this big Santa sack. What is missing is funding for the troops on the ground in Iraq.

I find it very sad, very sad indeed, that it is the men and women who defend this great Nation who are left out in the cold this Christmastime. They are the ones that should be at the very top of the list, Mr. Speaker. We should think of them first. We should honor them in the way that we do our jobs. We are a Nation at war. We know that. That is something I think most people in this body agree with. And we pass a budget that does not include them and does not include the funding to meet their needs.

Mr. Speaker, you and I would not be able to stand in this Chamber and have this debate if it were not for the men and women of the U.S. military. We should honor them. They should have been Title I, Page 1. And instead they are nowhere to be found in 3,565 pages. That is a serious oversight.

And, once again, we can talk about all the other things. We can talk about the illegal immigrants being able to get funding for attorneys. We can talk about roadblocks to having the borders secured, things that are purposely placed there; but the most egregious oversight is the fact that it does not fund our troops.

As I close, I will say God bless those troops. God bless their families. And, Mr. Speaker, my prayer is that this House will reverse itself and will put them first in this budget document.
